Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Nicole

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Gwenell Mixon

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Eric Boughton Nelson

Dear Chairman Porter,

Please allow the record to show that I am opposed to any sort of rate hike introduced by the electric companies in this case. Poor management decisions by these companies should not fall as a burden on customer shoulders when public records show these electric continue to make enormous profits year after year. At our non-compensated economic expense, we insulate, change lighting (LED efficient) cut back on usage, and are mindful of everyday uses with regard to electricity being used. It seems like every time we lower our electrical usage and try to save a little money, a utility is lobbying for more. The threats of plant closings, and potential lack of available power should not be allowed to intimidate customers. The utilities have a moral obligation and a federal mandate that forces utilities to provide clean and reliable electricity to all. I believe that somewhere buried in the Rural Electrification Act resides language that protects all consumers from these threats. Electric companies should follow what we as customers have to do with regard to paying for our own mistakes, as we do not have the express leisure of lobbying for handouts.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

At our non-compensated economic expense, we insulate, change lighting (LED efficient) cut back on usage, and are mindful of everyday uses with regard to electricity being used. It seems like every time we lower our electrical usage and try to save a little money, a utility is lobbying for more. The threats of plant closings, and potential lack of available power should not be allowed to intimidate customers. The utilities have a moral obligation and a federal mandate that forces utilities to provide clean and reliable electricity to all. I believe that somewhere buried in the Rural Electrification Act resides language that protects all consumers from these threats. Electric companies should follow what we as customers have to do with regard to paying for our own mistakes, as we do not have the express leisure of lobbying for handouts.

Dear Chairman Porter,

For many years ago we had to endure the worst substation in the state of Ohio - the Waldo, Ohio substation. Our electric was off for hours on a regular basis. After many years and many complaints to the PUCO, it was finally fixed. I now receive mailings at my house on a regular basis regarding my home energy usage. While this information is helpful, it could be sent on a postcard instead of a 2-sided full color letter mailed in a 1st class envelope. Talk about a waste of money and resources! I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. WHO IS PAYING FOR THE HIGH DOLLAR RENT FOR THE HUGE AEP BUILDING IN DOWNTOWN COLUMBUS? Surely they could find cheaper office space elsewhere. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Douglas&Jacquelyn Jones

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Bob Arnoff

We are already paying outrageous bills to AEP, our bill was over \$500.00 this month and we have done everything to lower it, insulation, doors and windows. We even had AEP come out to do an Audit, no help! The previous owner said his bill was always higher than his brothers and they were neighbors in the same kind of house and with the same heat source. My co-worker has a 100 year old farm house with no insulation and her bill is only \$250.00, this is ridiculous. Make the welfare pay their own bills and quit taking AEP raises out on hard working families. Quit putting made up RIDERS on our bill to pay for everything, they never take them off.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Please do not approve the increase in our utility bills. I am a senior citizen and with no increase in our retirement dollars this year, it is hard enough to make ends meet. I'll have to chose what I want to keep if this happens: meds, utilities, food. None are a good choice.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

Let the shareholders take a hit for once! No more bailouts for bad management!

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

david olive

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Judy DeGroff

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

mary maroon

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

scott miga

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I am tired of watching my electric bill go up to pay for AEP's and FirstEnergy's poor strategic decisions. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. Declines in energy consumption related to improved energy efficiency and the cost of improved pollution controls on older power plants are all based on regulatory processes that have taken years, if not decades, to run their course. If these companies have not been able to plan and adapt, it is only because of their shortsighted management style which is unlike that of other utility companies across the US that have found ways to profit from these changes.

In a free market, companies cannot usually force their customers to compensate them for the management mistakes that they have made. Yet these two electric companies have been gaming the system in their favor for years and have already forced Ohioans to pay billions of dollars in "transition" costs related to market "deregulation" that failed to lower rates. It is the responsibility of these companies to provide reliable power at a fair price, but it is not the responsibility of their customers to insure these companies achieve a certain level of profitability. Change management is a cost of doing business and these two utility companies should not be exempt.

Assertions that electric rates will eventually rise and that these proposed rates will save consumers in the long term are unfounded, especially considering that increased energy efficiency is lowering consumption faster than the rate of growth in our state. Also, based on increased global access to Liquefied Natural Gas as well as sustained investment in shale gas, the price of natural gas is expected to remain low well into the next decade, placing a ceiling on how high electricity prices will rise without government mandated fees and handouts.

Please stand up for Ohio consumers and the free market and tell the PUCO to reject AEP's and FirstEnergy's blatant money grab. It is time to stop bailing out the upper management of these companies for their shortsighted decisions and force them to plan, adapt and compete like any other businesses would be expected to do.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Ed Rush

Dear Chairman Porter,

I cannot continue to afford the constant rising cost of electricity my income is fixed and they do not give us adjustments. For my electric bill to go up to pay for AEP's and FirstEnergy's old power plants is unfair. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

My bill has over doubled in the last 2 years even though I installed energy efficient furnace, lowered my heat. I did not ask them to pay for my upgrade. What have they done but continue to hit the consumer. Its time for the hard working consumers that pay their bills to get some assistance.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James W. Dobbins

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Linda Burns

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Bob Burns

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael OKeefe

Subject: rate hikes for First Energy and AEP

Dear Chairman Porter,

Dear members of the PUCO,

AEP and FirstEnergy are requesting a rate hike that protects them and their old ways of generating electricity at the expense of Ohio citizens and businesses. If these companies are worried about their future they should invest in new technologies and be part of changing how we get electricity rather than staying with dirty coal and unsafe nuclear generation and expecting us to support their old habits. I want Ohio to be part of the new energy revolution, not stuck in the past. Please deny the requests of First energy and AEP. Thank you.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Lyn Williams

Subject: Robust Profits - Let Them Pay for Power Plant Upgrades

Dear Chairman Porter,

AEP wants a handout to upgrade their aging power plants when last July they reported a second-quarter profit of \$430 million, up from \$390 million in the prior-year quarter. Seriously?

I'm really sick of these utility companies asking for handouts while they're reporting robust earnings, robust profits and higher dividends for shareholders. Let the shareholders and AEP upgrade the plants. Quit asking the consumers (many of who, myself included, live from paycheck to paycheck already) to pay for these things.

Enough is enough already.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Utility Handouts? Really??

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Opposition to Utility PPA Settlements PPA Cases 14-1693-EL-RDR; 14-1297-EL-SSO
Date: Tuesday, February 16, 2016 4:12:38 PM
Attachments: [Graphic Packaging International PPA letter to PUCO.pdf](#)

Dear members of the Ohio Public Utilities Commission:

Attached you will find a letter in opposition to the recently negotiated settlements between the PUCO and FirstEnergy and American Electric Power. These potential PPA's adversely affect Graphic Packaging International's manufacturing operations in the state of Ohio. We ask that the full PUCO reject these proposals and continue to focus on continuing to provide competitive energy markets in the State.

Graphic Packaging International is a major manufacturer in the State, and the largest manufacturer of folding cartons in North America, with three facilities located in both service territories (Middletown, Marion, Solon).

Please do not hesitate to contact me with any additional questions or concerns.

Thank you.

-Brian

On February 11, 2016, Ultimate Energy Advisors filed a renewal application in Case No. 14-0096-GA-AGG. Unfortunately, they did not use the proper commission form when filing this renewal and I asked them to file the first six pages again using the proper form. They filed the first six pages again on February 12, 2016 however this filing was docketed as a new application in Case No. 16-0337-GA-AGG. Please move this filing to the correct case number 14-0096-GA-AGG.

Thanks,

Bill Haiker
