Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Cheryl King

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Reggie Butz

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

donald maloy

Dear Chairman Porter,

I don't want anyone to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. The security of supply scare tactic is appalling, there is plenty of power in the PJM market to cover even the worst case scenario.

The only people in favor of this are the Utilities themselves, and those that have been paid off by the Utilities. The backroom side deals they made are blatant bribes, and should be illegal.

It's outrageous that anyone's will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Please include my letter as a part of PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

On behalf of Blanchard Valley Health System, we wish to express our concern regarding the intent of the PPA submitted by AEP and FirstEnergy; two companies that appear to be profitable.

Approval of this PPA would have a significant impact on BVHS, and result in an increase of up to \$115,000 per year, or \$920,000 over the life of the project. BVHS does not support the PPA proposal and asks that the PUCO reject this agreement.

Dear Chairman Porter,

It has come to my attention that AEP and FirstEnergy are trying to hijack Ohioans' electric bills by demanding billions of dollars in the form of rate increases from Ohio consumers to prop up old power plants that they claim are losing money.

As it currently stands, since deregulation, I regularly pay more for transmission service, phase in riders and recovery fees than the cost of the electricity use. My electric bill has tripled over the last three years. Even with buying new energy star appliances, switching to LED lighting, adding insulation and keeping the house cold in the winter and hot in the summer, my electric bill continues to climb.

ENOUGH IS ENOUGH.

I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Even though AEP and First Energy are private companies, they still are public utilities serving a captive audience.

Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mary Upperman

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

kathryn mason

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Terry Lancaster

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Kenneth Heslin

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Andrea Hall

Apparently in other states on the regional grid electric utilities have to bid in a reverse auction to serve peak power demand of the grid. Dominion energy for one is investing in plants that are gas powered. They have low service costs, quick start up, and are clean environmentally. In Northeast Ohio 3 or more gas fired plants are either under construction or in the permitting process at Lordstown, Wellsville, and Carrollton Ohio plants. They are usually small independents competing with these giants. The public interest is not served by more crony capitalism. The utilities demand for increase fees should be vetoed.

If the generating plants of First Energy's generating plants can't meet pollution standards or pay their way for upgrades from past generating years, then they should be shut down and demolished to make way for more efficient plants. That is what First Energy wanted when they split the company to get away from regulation.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

If the generating plants of First Energy's generating plants can't meet pollution standards or pay their way for upgrades from past generating years, then they should be shut down and demolished to make way for more efficient plants. That is what First Energy wanted when they split the company to get away from regulation.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

George J. Boyle

I strongly object to the plan to raise energy rates in order to help cover the costs of updating outdated power plants. First Energy should have seen the predicament that they would be in and made the repairs ages ago. That should have been first on their minds instead of naming a stadium after themselves. I am upset every time an announcer says he's reporting from First Energy Stadium. They should spend their money first on making their company viable without charging customers.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. It is time for the PUCO to get out of bed with the utility companies operating in Ohio. If AEP and FirstEnergy did not invest their profits to upgrade their plants and infrastructure as any good business practice would dictate, then they should cut their business expenses at the top end and put them to better use. The PUCO has a bad habit of rubber stamping every request that is put before them! PUCO should be looking out for Ohio consumers and not utility companies.

Subject: Question Re. Material Change in Foreign LLC
Date: Friday, February 19, 2016 2:42:40 PM

Hello,

I'm trying to find out if I submit a letter of a material change to the PUCO Docketing Division, if it will make the changes for both the Ohio Public Utilities Commission and the Ohio Secretary of State. Can you please advise?

Thank you,
