To Whom It May Concern:

It is my understanding that First Energy and AEP are requesting a government bailout. They have out dated coal burning power plants and an old nuclear plant which provide energy at a cost higher than the current market allows them to sell their product. The current situation is not a surprise. These companies should have seen this coming. Everyone else saw the writing on the wall years ago. If these companies did not respond years ago, I do not feel we should grant them the current rate hike that they are requesting.

Sincerely,

Betty J. McGlone

Public Utilities Commission of Ohio
180 East Broad Street
Columbus,Ohio 43215

Dear Sirs,

This letters intent is to express my opposition to First Energys and AEP request for a rate hike to pay for their outdated power plants.If the utilities need more revenue then they should cut the dividends to their shareholders and cut the salaries of the C.E.O. How many millions of dollars a year does the CEO of FirstEnergy make now ?

I am in the midst of losing my all electric discount which C.E.I. promised years ago, but has since eliminated,forcing home owners the huge expense of converting to alternate heating.

Please stand up for Ohio consumers and reject the Utilities request for higher rates.

Thank you.

Sincerely,
