Subject: Be our advocate! That's what you were elected to be, the people's advocate! Do NOT accept lobbyist bribes!

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mr. Michael Papp  
3906 April Dr  
Uniontown, OH 44685

To: Porter, Andre  
Subject: Complicit in rate hikes

Dear Chairman Porter,

If PUCO must be complicit in raising utility rates then propose an energy tax to benefit all Ohioans rather than select companies. AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Do not approve the AEP request.

Dear Chairman Porter,

AEP can manage their own costs. Look how they changed their policies in the last two decades on basic maintenance costs after they acquired many companies out west.

They let things grow until it is a major expenditure and they chose to let it get to this place.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

james semancik  
6017 Turney Rd  
Cleveland, OH 44125

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Ron Bellus  
2538 Forest Springs Dr SE

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Phil Bedell

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Richard Fawcett

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

The PUCO approved the rate hikes for AEP to pay for the force majeure wind storm that helped pay for the fixes to their aged delivery system. They balanced their budget on business customers and also under the auspices of the PUCU designated any non-residential meter as commercial. This raised the electric bill from my garage from \$15 per month to over \$30 per month causing me to cancel service on my garage for 3 years. I thought the PUCO was supposed to look out for the consumers.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I have experienced this hike first hand, and can never get a clear cut response from AEP. I have received an insane amount of confusing letters from them over the past year, as my electric bill continues to climb month after month. They, without my knowledge or consent, placed an additional supplier on my bill which almost tripled it, and it took them 3 months to get it straight, but still failed to make it right money wise. I am through with paying these high bills and get disconnect notices monthly from them the day after a bill is due, with higher charges!!!! Please help do something , as they are taking advantage of us hardworking individuals that don't have the extra time or invested interest into digging deep into the monthly bill or sit at home and make sure that when they say they are coming for a reading to make sure they actually come do a reading.

Thank you

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

AEP charges outrageous prices as it is! They don't even care if it's below freezing temperatures and you can't afford to pay your bill! Why on earth would we want to help them, much less give them more money, when they could clearly care less about their customers?! Seems to me that AEP needs some healthy competition!! It is LONG OVER DUE!!!

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

I also want to know if they had not bought the naming rights on Cleveland Browns Stadium would they not be in a better place, financially. They also want to put a \$100 dollar security fee on bills where I have lived for the past 17 yrs. When asked if they already charge a late fee First Energy's answer was yes they do charge a late fee.

They are a utility, a monopoly. They do not need to advertise or name stadiums. Where else are we suppose to get our electric from. We are a captive victim of the utility. I think they need to find better ways to manage they're money. Instead they mismanage and expect us to foot the bill for First Energy's mistakes. NO UTILITY SHOULD HAVE IT'S NAME ON ANYTHING OTHER THEN THEIR EQUIPMENT!!

Sincerely,  
Larry L. Landford

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

And while I'm taking the time to contact you regarding the above cases I would like to take a moment to mention what I see should be a requirement of our state utilities and government to take action and improve our state's electric grid to protect it from computer hacking and security inadequacies and from solar storms. I would also like to see more increased energy production from renewable energy sources in our state, in Lucas county in particular and I would like to see incentives for home owners to invest in solar, wind and geothermal residential energy generation.

Thank you for your time and I look forward to hearing from you regarding these topics.

Dear Chairman Porter,

We are writing to protest AEP and FirstEnergy's request for PUCO to authorize a bailout for their aging power plants. It is not fair for consumers to subsidize companies while the companies enjoy profits and pay dividends to shareholders.

In spite of AEP and FirstEnergy's attempts to scare consumers, there is no threat to Ohio's electric supply. They should be ashamed of these tactics.

Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's request.

If Firstenergy can afford to pay the high price of having Cleveland Browns Stadium named after their company....then they don't need any more rate increases...PERIOD! Too many residents live on a modest and/or fixed income....and I know that those in their ivory towers don't care about them....but we do. Companies just like people MUST adapt and learn to live within their own budgets. We can't pass along our expenses...and even those of us working are not seeing much in the way of pay increases. So I respectfully ask the PUCO to turn down this rate request by FirstEnergy.

Sincerely,

Russ J

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Pamela J. Jones  
5561 San Gabriel Dr Apt D

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Derrick Shook

Dear Chairman Porter,

Remember that First Energy is the company that Sent all customers the fluorescent light bulbs in a kit and expected the customers to pay a ridiculous price for them. The customers had to sue to stop them. First Energy purchased these fluorescent bulbs at a super cheap price and expected to make millions on making customers buy them even though the customers didn't request them. This was at a time that LED light bulbs were widely available and instead of promoting new more efficient products, First Energy sent out older more wasteful products. In 2015 i replaced all light bulbs in my house with LED's and expected to see a decrease in my electric bill. But instead, First Energy raised rates by 8% because of Obama's coal burning penalty. So basically First Energy just got an 8% raise because as soon as they convert the coal burning plants to gas, they will have this 8% raise forever. This is why i oppose this new rate increase proposed by First Energy.  
Thank you, Keith Wenzel

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James Walsh

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Also, where am I suppose to get this extra money? I absolutely do NOT have it to give. If I can't pay all the extra, my utilities will eventually get turned off. Is this what being an American has come to? You don't care about the middle and lower class people?? I am a single woman with one income. I do not have anyone to help me pay my bills. I am stretched thin as it is! I have realized that it all depends on the neighborhood a person lives in. First energy is trying to make the middle and low class people pay extra money that they are going to use to get rich. This is so sad! Well, if you were smart, you would try this scam on people who can afford to bail you out. People who make \$60,000 or more. I have always compared the cost of my utilities with some of my friends who live in different neighborhoods and it doesn't take a genius to see that companies always target the neighborhoods that can't afford it. I, for darn sure can't afford to pay double on my electric bill, or any other bill!! I just don't have it!! Please stop this criminal act. It is unfair, immoral, and it shows how you devalue people who don't live where you live.

Sincerely,

Dear Chairman Porter,

I don't want my electric bill to go up to pay for FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject FirstEnergy's money grab.

FirstEnergy has a long history of deceiving consumers, cutting corners no system maintenance, and stuffing upper managements pockets full of cash. Their negligence and lack of forward looking planning to reduce costs and improve their systems is their fault. Ohio consumers should not have to bail them out.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

I check my bill recently and found there were more "estimated" bills than "actual"....why?  
AND the estimated bills were a lot more. Why? Shouldn't my "estimated" bills be an average of my actual?....Over the last year 7-8 months were "estimated"...if there was any adjustments...I didn't see it and besides OE had the higher receipts in their pockets for months until any adjustment were made...I had to take their word for it.....NOW I read my own meter...

Shouldn't there be type of analysis of why the increase is needed or an audit of your books to see if everything is above board?

Certainly any negative ruling by any of the PUCO members will result in someone not being hired again....I know how it works!...an that is big bucks to give up!!

So you are stuck with doing the right thing or securing a great employment.....

So. ..anyway I see no reason for an increase do you?

Sincerely,

Rich Hughes

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Rick Oliver  
5910 Forestview Dr  
Columbus, OH 43213

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

This is the same AEP that handed out \$1.4+ million dollars to keep four executives working for less than a year before they announced Nick Akins would take over for Mike Morris. The idea that they need to be guaranteed more money is ludicrous.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Bret Phillips

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

AEP and FirstEnergy have been a bane to the existence of our church. Now they want to raise rates even more? Our last bill was OVER \$800 for a building that we use, at most, 3 times a week.

As I understand the situation, they now want to raise our rates again to pay for upgrades when they made over \$2 billion in profits in 2015?

Does this sound fair to you, or is that concept too outdated?
