Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Scott Everett

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

To: Johnson, Thomas
Subject: Ignore utility companies scare tactics

Dear Commissioner Johnson,

Why is it that the rich always need to get richer at the expense of the middle class, people on fixed incomes and lower incomes and small businesses. We are supposed to guarantee them profits. I hear complaints about welfare to the poor but never any about corporate welfare which cost our country much more in less revenue. IT,S CRAZY!!!!!!!!!!
We say NO to AEP handouts

Subject: Say NO to Utility Handouts

Dear Commissioner Johnson,

Constituents and customers are not responsible to guarantee corporations profits, not even public utilities. AEP and FirstEnergy wanted deregulation, over the objection of most Ohioans. Deregulation has served them and their share holders very well for some time. Now that it is not quit going their way, they want a bailout - at the expense of their Ohio consumers. Economic compitition is what these companies sought - a way to expand and compete in the economic market place. Now they are not as profitable as they want, or think they should be, it is NOT Ohioans responsibility to foot the bill for their bad business decisions.

Say NO this corporate blackmail.

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Linda Charlier

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Almost every time any of the utilities ask for a rate hike, the PUCO gives them everything they want, and does not protect Ohioans. The PUCO is almost always ready to put more money into the utilities companies pockets. I ask that the PUCO AND the utility companies totally changes course and start thinking of Ohioans for a change.

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Amber Hackman

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Power plants already paid for

Dear Commissioner Johnson,

In 1974 Gavin Power Plant (2 units) rated at 2600 MW cost 660 million dollars. In 1980 Mountaineer Power Plant (1 unit) rated at 1300 MW cost 990 million dollars. So if you total the " generation years " of these 2 locations in at 78 generation years and producing a total of 3,900 MW. If you run the numbers at the average of the cost of a kilowatt hour being .07 cents over 78 years comes to 27.3 billion dollars! This is just at 2 facilities when AEP has 90 + facilities generating 27 billion MW. Just the 2 locations that I've mentioned were long ago paid for, (Gavin 1981), (Mtn. 1987) and have generated profits since those dates for AEP. AEP planed on generating units to last 50+ years on the life of these units and substantially made the company profit. If the PUCO grants AEP's request will mean higher profits for them and higher electric bills for us. Do we really think that in 8 years those added " tariffs " will come off our bills? Or as in the past other requests and fees will be added to take their place? AEP has posted record profits and dividend payouts for 37 years straight, posting zero losses, (remember the storm of 2008) when they charged us for the repairs all the while the had insurance to cover those losses, where was the PUCO then? Now is the time that the PUCO stands up for us, let us catch up on our finances to allow for a family of 4 to be able to afford a day seeing a Cincinatti Reds baseball game.

Subject: Our electric bill is high enough stop AEP from raising rates thank you Thomas Brunner

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.
