Subject: I should not have to subsidize power companies

Dear Chairman Porter,

Why am I being asked to support a for profit company? Why am I being forced to pay a monthly fee until a for profit company starts to make profit, and then the fee will still continue or be turned into a credit?

Unacceptable

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jeff Stough

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

The money that AEP already sucks out of us is a crime ! For example, I recently had a whole house generator installed and they charged me \$160 to push a button to turn the electricity off and on again during the installation. This is horrendous ! They have been vultures forever. NO MORE MONEY FROM THE CONSUMERS !!!!

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Being a person on a fixed income I personally cannot afford to pay more money out. \$13,000 disability benefits do not go far when one is trying to buy food, medicine and pay rent for a place to live. I must pinch pennies already. What do I give up to for this increase to them?

Sincerely,

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Being a person on a fixed income I personally cannot afford to pay more money out. \$13,000 disability benefits do not go far when one is trying to buy food, medicine and pay rent for a place to live. I must pinch pennies already. What do I give up to for this increase to them?

Sincerely,

John Amrich

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab. Distribution charges double the bill for us and we only have disability as an income. We run a wood burning stove for heat to lower our electric bill but that doesn't take from the distribution cost. It is only me and my husband and there is no reason we should be sustaining these \$450 electric bills every month. Our furnace only runs 4 hours a night on extremely cold nights. These charges should not be legal in a poor county like Noble. We scrap pennies every month just to get by because of these high bills. I've done every weatherization technique out there but nothing really helps. Washington electric seems to make up their own prices as I have noticed on my bills that the price fluctuates, .07 one month and .09 the next. Its always changing and these people are robbers as far as I'm concerned because we have no other options on our road whom provide electric services. They have us cornered. Now AEP stepped in and added to it. This needs to stop!

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694
