**Subject:** Reject the Proposed FirstEnergy Settlement (Case No. 14-1297-EL-SSO)

After more than a year of hearings, thousands of citizens and businesses calling for its rejection, and expert testimony, FirstEnergy has failed to explain why using ratepayer dollars to prop up their aging, inefficient, dirty power plants makes any sense.

The proposed settlement that is pending before you does nothing to mitigate the environmental and public health impacts these coal plants will have in Ohio and beyond. The proposed settlement flies in the face of Ohio policy that honors customer choice. And just as egregious is asking Ohioans - the very same people who will suffer from air pollution and will have diminished energy choice under this proposed deal - to pick up the tab of over \$10 a month per household. By comparison, the cost of clean, renewable power that customers pay now is only about \$1 per month!

It is past time for FirstEnergy to adapt to a competitive market that is becoming more and more favorable to cleaner resources; the PUCO should encourage them to innovate and invest in the energy resources of the future instead of doubling down on the energy resources of the past.

Please stand with Ohio families and small businesses and reject this proposed settlement.

Thank you for your time in considering this request.

**Subject:** DO NOT Reject the Proposed 4-1693-EL-RDR and 14-1694-EL-AAM)

I am tired of the rhetoric and encourage you to PASS the PPA program.

People do not realize how much we rely on electricity and if the PPA does not pass, our costs will go up.

Re: Howard Rickabaugh  
619 Fort Findlay Rd

Woodville, OH 43469

Docketing Case No.: 14-1297-EL-SSO

Notes:

Please docket the attached in the case number above.

AEP and First Energy are trying to get billions of dollars from Ohio consumers to subsidize their old power plants they say are losing money. I should not have to pay extra to utility companies when I am not getting any benefit. Please put a stop to this and protect Ohioans from these unnecessary rates hikes. Thank you for your attention to this matter.
