OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Kelli Ridgley

Subject: Don't Bail out FirstEnergy

Mar 10, 2016

Thomas Johnson
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Kathy PROCACCIO

Subject: Don't Bail out FirstEnergy

Mar 10, 2016

Thomas Johnson
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. tiffani reedy

Mar 10, 2016

Thomas Johnson
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Christa Elliott

To: Johnson, Thomas
Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

My family cannot afford the \$1500 per month electric bill we already have! The majority of our bill is for service fees that have nothing to do with the amount of electricity we actually use. Not to mention the \$12 a month we pay for them to read our meter and they only show up physically to read it twice a year because we live on the outskirts of town. First Energy will not credit that charge to our account when they don't show up and oftentimes over estimate our usage.

Ohio Edison; aka First Energy, has created a monopoly in this region. When I investigated my options to change to a different electric provider, I discovered all of the companies are owned and operated by First Energy! There is no other option.

How is a family with two chronically ill elderly parents, a child with asthma, and a chronically ill disabled person who is unable to find work supposed to afford \$1500 for electricity per month and still afford to eat? (And no, we do not qualify for any assistance of any kind).

Tell your CEO to take a pay cut and learn to survive on less, like the rest of us common people who can't afford our electricity let alone food and medical care. By the way, I lived in Arizona where the AC ran 24-7 all 12 months of the year and I never experienced such outrageous electrical bills, as I have seen in Ohio! Go back to the drawing board and figure out your budget without punishing your customers. A rate hike like this just might mean we have to survive with no heat or running water because our well and heat source are powered by electricity. That is already over priced!

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

A. Angles

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Michael Ryan

Mar 10, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Justin Kitchen

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Misty Combs

Mar 10, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Cheryl Disanto

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Shannon Foster

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Fredrick Steiner

Subject: Reject the Proposed FirstEnergy Settlement (Case No. 14-1297-EL-SSO)

After more than a year of hearings, thousands of citizens and businesses calling for its rejection, and expert testimony, FirstEnergy has failed to explain why using ratepayer dollars to prop up their aging, inefficient, dirty power plants makes any sense.

The proposed settlement that is pending before you does nothing to mitigate the environmental and public health impacts these coal plants will have in Ohio and beyond. The proposed settlement flies in the face of Ohio policy that honors customer choice. And just as egregious is asking Ohioans - the very same people who will suffer from air pollution and will have diminished energy choice under this proposed deal - to pick up the tab of over \$10 a month per household. By comparison, the cost of clean, renewable power that customers pay now is only about \$1 per month!

It is past time for FirstEnergy to adapt to a competitive market that is becoming more and more favorable to cleaner resources; the PUCO should encourage them to innovate and invest in the energy resources of the future instead of doubling down on the energy resources of the past.

Please stand with Ohio families and small businesses and reject this proposed settlement.

Thank you for your time in considering this request.
