RECEIVED-SOCKETING DIV

As requested by Your Honor, enclosed is a brief summary in the matter of Faye Daniels vs. The East Ohio Gas Company/ Dominion East Ohio - Case No. 15-1288-GA- CSS.

The bottom line is that every year Dominion East Ohio Gas turns off my gas in the dead of winter and cuts me off of PIPP after the gas company receives the \$175.00 payment from Heap and the second payment from The Ohio Department of Development. I do not understand how this is not in violation of the purpose of the PIPP program. I feel as if I am being used to commit fraud against the program that is designed to help make the payments so we can have heat in the winter. Sometimes I have used my entire medical in three months so the utility company could get their errors in order. It is too cold in Ohio to shut the heat off on humans. I would like the chance to make my payments before my gas is cut off. What good is the program if a person on a fixed income cannot use it properly? I feel as if I am being singled out. This may be because I only receive \$733.00 a month on SSI. No one else in my family or friends go through this kind of harassment. Stop this theft of government funding before it becomes a regular practice.

Signed,

Faye E. Daniels
