PUCO Chairman Andre Porter  
OH

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Sincerely,

Mr. Martin Kubic

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

I recently found out that I owed AEP \$282.00 that I didn't know about until I had to file bankruptcy. I live on a fixed income & there are times when I have to decide who gets paid 1st. My utilities are a top priority along with my rent. My electric bill runs \$100 per month and it is killing my food budget. If it goes \$2 higher, I'll be dining by candlelight and cooking in my fireplace. I won't be able to use my furnace or refrigerate my food.

I switched to florescent lighting to save on energy. I only purchase Energy Star appliances so if I can make the commitment to save energy why can't AEP make a commitment to their consumers too keep energy costs affordable for all.

It's all about profits and the rich getting richer by making the poor & middle class carry the financial burden of their greed.

It's downright shameful and if the PUCO allows it you are not protecting the public!

As a constituent and a consumer I feel it is time to take action.  
Please stand with Ohio consumers on March 23 and say "no" to  
the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO;

Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Sincerely,

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Sincerely,

Mrs. Mary Williams

But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

A bailout of old polluting technology only benefits utility shareholders and delays investment in efficiency and renewable energy.

Here in Cleveland we have one of the highest rates of particulate pollution in the country. My family and I care about reducing toxic pollution and saving money on our electric bills.

Reducing our dependence on coal for electricity reduces mercury and other contamination from polluting drinking water from Lake Erie and the Ohio River.

Limiting pollution to our air and water leads to fewer deaths and sicknesses for everyone, inside and outside Ohio.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. I am tired of all the RIDERS that appear on my AEP bill every month. Hardly a month passes without AEP proudly announcing that you have approved another Rider and my bill will increase yet again. Enough is enough. The Federal government in its wisdom again in 2016 did not increase my Social Security benefit, plus health care costs are also shooting up. Where are we seniors ( and families ) supposed to get the money. SAY NO TO AEP.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

PUCO Chairman Andre Porter  
OH

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future. These companies have made little, if any, effort towards renewable energy sources. I fear most all the money they want to pick from my wallet will go to the executives bonus's and big buck investors as cash dividends. We are already paying excessive rates for electricity. Please stand up for us consumers for a change. For the last four decades, the PUCO has been little more than a rubber Approved stamp for the utilities interests. Have the balls to do your jobs.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Sincerely,

But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

The citizenry is aging and a large group do not receive annual COLAs . This is something that is not going to go away and requests for more money will continue. The PUCO should re-think AEP's request for more money to update something that should be coming out of their shareholders' pockets and the company treasury.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

PUCO Chairman Andre Porter  
OH

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Sincerely,

Mr. Kenneth Williams

Fixed income. Just can't afford all my bills increasing. \$10.50 That's a lot to some people such as myself. This can be used to help pay for the six medications I take. There is real inflation out there in spite of what the Fed says. Go to any grocery store and look at the prices. This isn't fair when there is no COLA.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

Dear PUCO Chairman Porter,

AEP wants me to subsidize inefficient power plants with rate increases that can cost consumers \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because AEP is not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers on March 23 and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 14-1694.

OH

Dear PUCO Chairman Porter,

FirstEnergy, AEP and DPL want Ohio consumers to subsidize inefficient power plants with rate increases that can cost consumers from \$10.00 to \$10.50 a month and thousands over the life of the deal. Older Ohioans, especially those with fixed incomes and no Cost Of Living Adjustment (COLA) this year, should not be stuck with the bill because these inefficient power plants are not competitive, nor should we bail them out on our backs.

The utility companies have threatened plant shut-downs and have warned that consumers and businesses will no longer have a reliable power supply if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

As a constituent and a consumer I feel it is time to take action. Please stand with Ohio consumers and say "no" to the utility bailouts regarding PUCO Case Numbers: 14-1297-EL-SSO; 14-1693; and 15-1830.

Sincerely,

Ms. Peggy Robinson

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Kathy J Wolfe

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. taylor hurley

Thomas Johnson  
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

If FirstEnergy can't compete in a market that demands cleaner energy alternatives, they've failed at capitalism. It's "adapt or perish," not "adapt or leech money from the people you aren't adequately serving."

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Cynthia Goosby

OH

Dear Porter,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Amanda Everley  
145 S 7th St

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Ronald Overholt

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

It has been common knowledge that electric energy providers have not been held responsible for maintenance of the power plants and lines. I do not believe that First Energy should bear the entire expense of maintenance but those companies that are benefiting from the revenues should also have to contribute to the maintenance.

I am all electric and my electric bill keeps increasing, the sewer bill keeps increasing, the trash bill keeps increasing, our insurance keeps increasing but our income doesn't keep up with the increases passed on to us. It's time that corporations are more responsible with their revenues!

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Mar 16, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Donald Reed

Mar 17, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Jennifer Crampton

Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Chris Urschel

Mar 16, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Jennifer Rayoum

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. James Stefanchik

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Steve Heckart  
39 Noble Ter Apt A

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Rhonda Leach

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Patricia Edwards  
3853 Wallingford Rd

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. JOHN SHOCKLEY  
3152 Summit Rd  
Ravenna, OH 44266-9002

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Earla Lawrence  
12909 Leeila Ave

Mar 16, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. James Marshall

Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mar 16, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Janet Miller

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Frank Lesko

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Sarah Bare

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. kat newkirk  
w. 127th st.

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. jeannette guarneri  
2156 Waterbury Rd

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Brian Wood

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Can you imagine what can be done with the money being given to bail out FirstEnergy? What if it was given to FirstEnergy not to bail out dirty energy sources, but instead to fund a clean energy initiative within the company? I understand jobs are a big concern here, and that without FirstEnergy many would lose jobs. But that doesn't mean that those workers can't work instead on something that will not contribute to the pollution of the air, water, and the rest of the environment. Please. The Earth is in some serious danger if we keep up the current energy practices because it is cheaper to let them continue than it is to change them. Only when the environment is decimated - trees are gone, water is undrinkable, and food no longer grows - will we realize that we cannot eat money.

On behalf of my generation and those to come after it, who will have to live with the augmented consequences of pollution, please consider

finding a cleaner alternative to bailing out the coal industry.

Thank you,

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. LINDA Maldonado

Dear Commissioner Johnson,

Please, please listen to the scientists that are trying to warn you that what you are doing is killing the planet. I know you think you can't make a difference when working for such a large corrupt system but YOU are the difference. "No single raindrop believes it is to blame for the flood" please be the raindrop that refuses to drown everything and everyone.

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

Please, please listen to the scientists that are trying to warn you that what you are doing is killing the planet. I know you think you can't make a difference when working for such a large corrupt system but YOU are the difference. "No single raindrop believes it is to blame for the flood" please be the raindrop that refuses to drown everything and everyone.

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Luther Banks

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Julie Wiggins  
1511 Madison Ave

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Kelly Fisher
