RECEIVED-DOCKETING DIV

Dear Senator Peterson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Senator Peterson,

they need to cut administration costs, lower their salaries( their kids college, house(\$137,000 and up) are paid for and walk in the shoes of the common people. They forget where they started from and people living on fixed income, struggle now.

Why don't we, the people they serve, get a break!!!!!!!!!!!!!!!!!!!!

Dear Representative Hood,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Representative Hood,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

My son needed new service and they would not wave his deposit of \$132.00; I was his payee on his SSI checking account. Why should I give them a brake when they would not give me one. I'm trying to help him out with limited income. Who do I go to; to give me back the money I have to give him.

Sincerely,

Dear Representative Hood,

The money that AEP already sucks out of us is a crime ! For example, I recently had a whole house generator installed and they charged me \$160 to push a button to turn the electricity off and on again during the installation. This is horrendous ! They have been vultures forever. NO MORE MONEY FROM THE CONSUMERS !!!!

Dear Senator Peterson,

AEP and FirstEnergy have been a bane to the existence of our church. Now they want to raise rates even more? Our last bill was OVER \$800 for a building that we use, at most, 3 times a week.

As I understand the situation, they now want to raise our rates again to pay for upgrades when they made over \$2 billion in profits in 2015?

Does this sound fair to you, or is that concept too outdated?
