Subject: Dominion East Ohio to once again increase fees and AEP/First Energy

Never ending increases. Management never questioned as to their ability to run a competitive business and or their lack of efficiency as leaders.

What are you prepared to do and how are you protecting us? And....

Relating to my email sent on the 14th of last month (never receiving any responses) regarding:

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Regards,
Ken Zehenni

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Katralla Madden

OH

Dear Porter,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. christie allen

Thomas Johnson
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. David Fuller

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Alana Lutz

Dear Porter,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

Mar 21, 2016

Thomas Johnson
OH

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. sheryl smith

Dear Porter,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Cathy Young

Dear Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal and ensure full corporate separation, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Doing so would send a clear message to clean energy businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era -- one in which utility profits are not placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's clean energy future.

Sincerely,

M. Paula Bell

Subject: I have an all electric home. PUCO please say No to the utility handouts and yes to cheaper natural gas fuel.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

lee lentz mrs

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

vicki croxford
4871 County Road 41

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request. We simply cannot afford these measures, not now nor in the future either. Our children are counting on your fortitude and decision against First Energy.

Thank you,

Mr. anthony gibson

Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Jason Bugg

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Frank Abbott

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

The responsibility for the economic difficulties resulting from coal-fired power plants lies solely with FirstEnergy's executives. They are expecting a bail-out at tax-payer and consumer expense, a practice which has become all too common in the last forty years as private losses are being shifted to tax-payer bailout. This cannot stand.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Mark Schrider

Subject: Reject the FirstEnergy Bailout

Mar 21, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. MaryRuth Iannucci

Subject: Reject the FirstEnergy Bailout

Mar 21, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Miss Donna Arroyo

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mrs. Joanne Patterson
2104 Portside Dr

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Miss Karen Pusateri

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Nick Getzinger
PO Box 89
Weston, OH 43569-0089

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic and dirty power plants.

More and more parties -- such as the Ohio Manufacturers Association, Ohio Consumers' Counsel, and AARP -- are now opposing the bailout, but the utility giant and its expensive lawyers and lobbyists are pressuring Ohio regulators in these final days before a decision.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Dr. W Jeanne McKibben

To: Johnson, Thomas
Subject: Reject the Proposed FirstEnergy Settlement (Case No. 14-1297-EL-SSO)

After more than a year of hearings, thousands of citizens and businesses calling for its rejection, and expert testimony, FirstEnergy has failed to explain why using ratepayer dollars to prop up their aging, inefficient, dirty power plants makes any sense.

The proposed settlement that is pending before you does nothing to mitigate the environmental and public health impacts these coal plants will have in Ohio and beyond. The proposed settlement flies in the face of Ohio policy that honors customer choice. And just as egregious is asking Ohioans - the very same people who will suffer from air pollution and will have diminished energy choice under this proposed deal - to pick up the tab of over \$10 a month per household. By comparison, the cost of clean, renewable power that customers pay now is only about \$1 per month!

It is past time for FirstEnergy to adapt to a competitive market that is becoming more and more favorable to cleaner resources; the PUCO should encourage them to innovate and invest in the energy resources of the future instead of doubling down on the energy resources of the past.

Please stand with Ohio families and small businesses and reject this proposed settlement.

Thank you for your time in considering this request.
