**Re: Clean Energy Future-Lordstown, LLC,
OPSB Case No. 14-2322-EL-BGN**

Dear Ms. McNeal:

The September 17, 2015, Opinion, Order, and Certificate ("Certificate") approving Clean Energy Future-Lordstown, LLC ("CEFL") Certificate of Environmental Compatibility and Public Need to Construct the Lordstown Energy Center established a set of conditions as part of the Certificate.

Within this set of conditions, **Condition No. 4** requires that:

The Applicant shall not commence construction of the facility until it has a signed interconnection service agreement with PJM, which includes construction, operation, and maintenance of system upgrades necessary to reliably and safely integrate the proposed generating facility into the regional transmission system. The Applicant shall provide Staff with either a letter stating that the agreement has been signed or a copy of the signed interconnection service agreement.

In compliance with **Condition No. 4**, this letter confirms that the Interconnection Service Agreement with PJM (the "ISA") is full executed. CEFL signed the ISA on January 4, 2016; American Transmission Systems, Incorporated signed the ISA on January 26, 2016; and PJM signed the ISA on February 3, 2016. As such, CEFL is in compliance with this condition.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
