Exhibit A-15 "Corporate Structure"

Scioto Energy is an Ohio Limited Liability Company with two managing partners and no affiliate or subsidiary companies that supply retail or wholesale electricity or natural gas to customers and companies that aggregate customers in North America.

Exhibit A-16 "Company History"

Scioto Energy is an independent brokerage and consulting firm founded in 2009 to provide energy solutions for clients in the areas of energy procurement, rate analysis, risk management and load response. The managing partners are seasoned energy professionals with over 40 years of experience in both energy trading and energy retail marketing. Scioto Energy is completely independent from any wholesale supplier; our only allegiance is to our customers. Our extensive knowledge of utility structures, tariffs, and wholesale modeling allows us to deliver crucial and unbiased information to our clients, which empowers them to make the best decisions regarding implementation of risk strategies that are in line with corporate goals.

Scioto Energy currently has over 7,000 accounts under management that are utilizing its electric expertise, ranging in size from the small mom and pop type shops, all the way up to the largest users in the State of Ohio. In 2013, the company was recognized as one of the 50 fastest growing companies in Central Ohio (#18), and both partners were included in the "Who's Who of Energy", a publication which recognized the top energy leaders throughout

Exhibit B-1 "Jurisdictions of Operations"

In addition to its Ohio CRES certification as a Power Broker, Scioto Energy currently holds a license and is certified/registered to provide retail or wholesale electric services in the state of Illinois, Pennsylvania, and Massachusetts.

Exhibit B-2 "Experience & Plans"

Scioto Energy is an independent brokerage and consulting firm founded in 2009 to provide energy solutions for clients in the areas of energy procurement, rate analysis, risk management and load response. The managing partners are seasoned energy professionals with over 30 years of experience in both energy trading and energy retail marketing. Scioto Energy is completely independent from any wholesale supplier; our only allegiance is to our customers. Our extensive knowledge of utility structures, tariffs, and wholesale modeling allows us to deliver crucial and unbiased information to our clients, which empowers them to make the best decisions regarding implementation of risk strategies that are in line with corporate goals.

Scioto Energy's unique procurement and analysis process ensures our clients the best optimization of structure and strategy for their own risk appetite. Based on each customer's requirements and criteria, we reach out to a diversified group of suppliers we have vetted and determine to be in a position to fulfill that customer's specific needs and then supply the essential data for the customer to make an informed decision. Scioto Energy does not take title to the electricity and is not a party to any agreements between customer and supplier and therefore does not provide any energy related billing statements to customers.

Greg Bechert has been involved in the energy retail industry since 1995 beginning with Enron Capital and Trade, where his initial focus was natural gas end-use customers throughout the Midwest region, specifically in Indiana, Michigan, and Ohio. Over seven years, his role and responsibilities expanded to include marketing electricity in Massachusetts, Illinois and Texas. In 2003, Mr. Bechert joined Constellation NewEnergy (CNE) where his knowledge and background assisted CNE in its marketing campaigns under Cinergy's and FirstEnergy's Market Development Plans. He went on to manage CNE's Midwest sales team, and was instrumental in leading the company's sales efforts behind the Ameren footprint in Southern Illinois, and eventually expanded his responsibilities to include the ComEd market throughout Chicagoland.

Susanne Buckley began her energy career in 1992 when she joined American Electric Power as an environmental engineer, which provided the foundation for her extensive knowledge of utility rate structures developed over the years. Ms. Buckley moved to the deregulated side when she joined American Electric Power Energy Services in 1998 where she gained experience in operations, trading, structuring deals and marketing. In 2005, Ms. Buckley joined Integrys Energy Services where she led the residential mass markets efforts for deregulated natural gas and electricity sales and also directed the commercial and industrial sales efforts for the Midwest region.

Exhibit B-3 "Summary of Experience"

Scioto Energy began marketing natural gas in May 2014. Currently Scioto Energy is managing approximately 125 commercial accounts primarily behind the Dominion East Ohio, Vectren, and Columbia Gas distribution system, with an estimated total annual consumption of 68,000 MCF.

Exhibit B-4 "Disclosure of Liabilities and Investigations"

As of this filing, Scioto Energy is not aware of any existing, pending or past rulings, judgments, contingent liabilities, revocation of authority, regulatory investigations, or any other matter that could adversely impact its financial or operational status or ability to provide the services it is seeking to be certified to provide.

Exhibit C-1 "Annual Reports"

Scioto Energy is not a publicly traded entity and does not have an annual report.

Exhibit C-2 "SEC Filings"

Scioto Energy is an energy brokerage firm and does not take title to the natural gas. In addition, Scioto Energy is not a public entity and therefore no SEC filings are required.

Exhibit C-3 "Financial Statements"

The response to this request requires that Scioto Energy disclose confidential, proprietary or trade secret information. Scioto Energy has filed this information Under Seal.

Exhibit C-4 "Financial Arrangements"

As an energy brokerage and consulting firm, Scioto Energy does not require any loans to operate and handles all of its financial arrangements through Huntington National Bank at 800 High Street, Worthington, OH 43085 where its accounts are in good standing.

Exhibit C-5 "Forecasted Financial Statements"

The response to this request requires that Scioto Energy disclose confidential, proprietary or trade secret information. Scioto Energy has filed this information Under Seal.

Exhibit C-6 "Credit Rating"

Scioto Energy does not have a D&B number and therefore does not have a published credit rating.

Exhibit C-7 "Credit Report"

Since Scioto Energy does not require any loans/credit to operate and does not have a D&B number, no credit reports are available.

Exhibit C-8 "Bankruptcy Information"

Scioto Energy has not had any reorganizations, protection from creditors or any other form of bankruptcy filings ever.

Exhibit C-9 "Merger Information"

Scioto Energy has had no dissolution or merger or acquisitions within the five most recent years preceding this application.

Exhibit D-1 "Operations"

Scioto Energy currently manages the entire "life-cycle" of a client's procurement efforts, and involves the following staff team members:

Procurement Manager – individual responsible for managing the bidding process of interested wholesale suppliers

Contract Administration/Pre-enrollment – individual responsible for reviewing all agreements prior to submission to supplier for booking

Contract Administration/Post enrollment – individual responsible for handling any issues after the deal has been confirmed to be hedged and enrolled by the supplier such as late enrollments, early drop notifications, etc.

Analyst – Ongoing analysis validating performance of existing agreement with supplier as well as impact analysis for pending rate cases

Exhibit D-2 "Operations Expertise"

With over 7,000 accounts under management currently, Scioto Energy has the staff in place to properly manage its clients through the entire life-cycle of an energy procurement project. In addition, We have invested in building our own management software in which deal specifics are captured in the system to allow the team to assist customers in managing the respective commodity agreements in place, the term contract rate, etc. This system is utilized for all of the current electric clients, and is easily adaptable to capture natural gas data as well.
