Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Descision on the First Energy Proposal

Dear Commissioners:

I felt the need to contact you prior to making your decision regarding First Energy's Proposal. After reviewing my records and discussion with my supplier it dawned on me that they are already receiving monies from us regarding improvements for the Plants both conventional and nuclear.

Should you take a look at my monthly billing or others you will find that we are being charged (for the current month) \$9.72 per thousand kwh. These monies as I understand it is suppose to be applied to maintain current and equipment purchases. This is to enable First Energy to keep abreast of new Technologies.

Everything is secret with First Energy, you request information they say they cannot provide that information. Therefore I am begging you to not grant First Energy the increases they are asking for because they cannot manage what they have (we are paying already for what they are seeking).

Please

Darryl

PS; I have records dating back to 2009 should you care to review this records all conversations and costs and useages. I spent over \$3000 installing my home which saved me monies on gas but not electricity, electricity went up 4%/year since 2012

Subject: Protect Ohioans from Unwarranted Utilities Increases

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to unfairly enhance their profits in electrical energy production and distribution on the backs of customers through excessive and unwarranted rate hikes. Customers are virtual hostages to the monopoly-like control these companies have on electrical energy in Ohio.

Electrical rate increases are a real hardship on hard-working Ohioans, seniors on fixed incomes, and countless small business owners. Please tell the PUCO to reject any proposed rate increases by AEP and FirstEnergy to keep Ohio economically competitive and fiscally sound.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Moot point now.

But I'll bet all of your Offshore Retirement Accounts had some nice additions made by FE/AEP, no doubt for 'Consulting' 'Work', ie what used to be called Bribes.

All of you are PURE SCUM.

Subject: Gee, THANKS...

Dear Chairman Porter,

Thanks for rolling over and playing dead with AEP and First Energy. I was just sitting here thinking about how much I wanted to face a new tax, which is what this is, in order to subsidize a large energy company who is ALLEGEDLY struggling due to an outdated business model. I am especially impressed with your closed door meetings with AEP and First Energy, as well as, your unwillingness to even answer questions after suddenly changing positions and agreeing with basically everything AEP and First Energy was proposing.

These facilities are allegedly struggling due to all of the cheap electricity in the marketplace. Funny, I don't remember receiving a reduction in my kilowatt/hour rate. What did these companies do with the profits?

Maybe it is time to break up these monopolies and let the market actually determine the price of energy instead of politicians and greedy CEO's... Since you ladies and gentlemen clearly cannot handle it, maybe it is time to open it up to some providers like Iberdrola Energy... Or does opening it up to the most efficient providers make too much sense?

Seriously people, this is a embarrassment. What could they have possible said behind closed doors to get you to change your minds? Or, was it all simply a show from the beginning? Did you just say you were against it in the beginning knowing all along that you were going to cave in?

Considering that the CEO's of AEP and First Energy make a combined total of \$17,983,005 annually, why not cut them down to say, \$250,000 annually COMBINED and use the remainder to offset the increase to the rate payers??? Seriously, why are two CEO's earning almost \$18,000,000 annually when their plants are unprofitable in a scenario where they literally have a monopoly. Sounds like they need better leadership to me.

You just voted 5-0 for a an unnecessary rate hike to subsidize two companies who essentially have a monopoly. You also did so based on THEIR information which was clearly biased, theoretical, and questionable at best.

You clearly are not working for the citizens of Ohio...

Subject: Testimony for Docket of Case No: 14-1297-EL-SSO

Dear Chair Public Utilities Commission Ohio Andre Porter,

Over a year ago the Public Utilities Commission of Ohio held a series of public hearings regarding FirstEnergy's proposed rate increase in Akron, Cleveland, and Toledo. At each of those hearings, and particularly in Cleveland, dozens of ratepayers testified against giving more of our money to FirstEnergy than we already do, for power plants that our regional grid operator says we do not need. Now, more than a year and many iterations later, the original plan has morphed not for the better, but continues to be considered by the PUCO.

The Plain Dealer reported in November that PUCO staff met privately with lawyers from FirstEnergy and negotiated a new version of the bailout plan. Through newspaper reporting we know that the term of the bailout has shortened, but no effort has been made by the PUCO to explain this new version of the plan to the public. We the people of northeast Ohio We will be forced to pay to bailout old power plants and guarantee profit for an investor owned utility for the next 8 years if you accept the plan as is. Our communities have not had an opportunity to learn about the revised plan and comment on it. We need to be informed about what this plan is and we need a chance to meaningfully comment on it.

Recent polling by the AARP shows that voters do not want to guarantee profit for FirstEnergy, an investor owned utility for the next eight years. We ask that the PUCO hold another set of hearings on the FirstEnergy rate case in FirstEnergy territory. At these hearings please include a summary of what the plan is at this point and be ready to take testimony from us, the ratepayers, and the public, who you serve as a commissioner on the Public Utilities Commission.

Sincerely,

Sincerely,

Michael Ryan

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Nolan Mates

Subject: Testimony for Docket of Case No: 14-1297-EL-SSO

Dear Chair Public Utilities Commission Ohio Andre Porter,

Over a year ago the Public Utilities Commission of Ohio held a series of public hearings regarding FirstEnergy's proposed rate increase in Akron, Cleveland, and Toledo. At each of those hearings, and particularly in Cleveland, dozens of ratepayers testified against giving more of our money to FirstEnergy than we already do, for power plants that our regional grid operator says we do not need. Now, more than a year and many iterations later, the original plan has morphed not for the better, but continues to be considered by the PUCO.

The Plain Dealer reported in November that PUCO staff met privately with lawyers from FirstEnergy and negotiated a new version of the bailout plan. Through newspaper reporting we know that the term of the bailout has shortened, but no effort has been made by the PUCO to explain this new version of the plan to the public. We the people of northeast Ohio We will be forced to pay to bailout old power plants and guarantee profit for an investor owned utility for the next 8 years if you accept the plan as is. Our communities have not had an opportunity to learn about the revised plan and comment on it. We need to be informed about what this plan is and we need a chance to meaningfully comment on it.

Recent polling by the AARP shows that voters do not want to guarantee profit for FirstEnergy, an investor owned utility for the next eight years. We ask that the PUCO hold another set of hearings on the FirstEnergy rate case in FirstEnergy territory. At these hearings please include a summary of what the plan is at this point and be ready to take testimony from us, the ratepayers, and the public, who you serve as a commissioner on the Public Utilities Commission.

Sincerely,

Sincerely,

Sandra Cobb

Subject: Protect Ohioans from Unwarranted Utilities Increases

Dear Chairman Porter,

AEP and FirstEnergy are trying to unfairly enhance their profits in electrical energy production and distribution on the backs of customers through excessive and unwarranted rate hikes. Customers are virtual hostages to the monopoly-like control these companies have on electrical energy in Ohio.

Electrical rate increases are a real hardship on hard-working Ohioans, seniors on fixed incomes, and countless small business owners. Please tell the PUCO to reject any proposed rate increases by AEP and FirstEnergy to keep Ohio economically competitive and fiscally sound.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.
