Re: David Odette  
5861 Waterville Monclova Rd

Waterville, OH 43566

Docketing Case No.: 14-1297-EL-SSO

Notes:

Dear Sirs: The electric rate increase should not be approved. The electric rate charged is already too high, especially compared to other areas. When I first moved to Virginia and originally had VEPCO they were reportedly one of the highest or second highest electric company in the nation and constantly kept asking the state for more rate increases. Finally the state regulators told them no more until they got their cost under control and were better managed. After several years they became one of the cheapest power companies in the country. Your apples to apples comparison is a bunch of crock. I take my whole bill and divide by KWH used. Tol ED is usually 12 to 14 cents, in VA it is around 7 to 9 cents, (depending on the season). In GA recently it typically was around 9 cents. I had totally electric houses and my bill was as much there a month as it is here using all gas but lights (plus now having the new low energy ones). On top of that, doing away with coal is a mistake. Maybe phasing out old coal power plants yea but new ones should be allowed. Building power plants using natural gas is not a good idea. I can heat my house with natural gas but I can't heat it with coal. Regards, Dave Odette

Please docket the attached in the case number above.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Hello,

I was just sending a follow-up to my email on Tuesday regarding my e-filing status. This time I've also attached the Form E that my company is attempting to file for the insured HD Trucking & Maintenance Inc.

Can you please route that document to someone that can process the submission, or let me know of a way to non-electronically accomplish this in the meantime until my e-filing profile is approved?

Any assistance would be greatly appreciated.

Thank you,

Hello,

I work for Liberty Mutual Insurance Company, and last week I signed up on your website with the goal of e-filing a Form E auto filing for one of our insureds. I've completed the registration, however on the main page of my profile, it tells me that **PUCO Docketing has not yet approved your Profile for Electronic Filing. Please contact the PUCO Docketing division at (614) 466-4095 to have your Profile activated.** After reading that, I called the phone number on the message, and was informed that the profile would be reviewed by someone there, and I'd be getting notified upon its approval.

I was wondering if this was something that was still pending, or if there was additional action required on my end.

Any assistance you can offer would be greatly appreciated. My registration is under this email.

Thank you,

Dear Chair Public Utilities Commission Ohio Andre Porter,

Over a year ago the Public Utilities Commission of Ohio held a series of public hearings regarding FirstEnergy's proposed rate increase in Akron, Cleveland, and Toledo. At each of those hearings, and particularly in Cleveland, dozens of ratepayers testified against giving more of our money to FirstEnergy than we already do, for power plants that our regional grid operator says we do not need. Now, more than a year and many iterations later, the original plan has morphed not for the better, but continues to be considered by the PUCO.

The Plain Dealer reported in November that PUCO staff met privately with lawyers from FirstEnergy and negotiated a new version of the bailout plan. Through newspaper reporting we know that the term of the bailout has shortened, but no effort has been made by the PUCO to explain this new version of the plan to the public. We the people of northeast Ohio We will be forced to pay to bailout old power plants and guarantee profit for an investor owned utility for the next 8 years if you accept the plan as is. Our communities have not had an opportunity to learn about the revised plan and comment on it. We need to be informed about what this plan is and we need a chance to meaningfully comment on it.

Recent polling by the AARP shows that voters do not want to guarantee profit for FirstEnergy, an investor owned utility for the next eight years. We ask that the PUCO hold another set of hearings on the FirstEnergy rate case in FirstEnergy territory. At these hearings please include a summary of what the plan is at this point and be ready to take testimony from us, the ratepayers, and the public, who you serve as a commissioner on the Public Utilities Commission.

Sincerely,

Sincerely,

shannon hahn-wallace
