CASE_NUMBER: 16-253-GA-BTX

COMMENTS: Greetings and thanks for the opportunity to submit our concerns regarding the above project. Our home, of 33 years, sits only 25 ft. from the curb facing St. Regis; AND 40 feet from the curb on our side yard facing Rosemary Ln. Our corner location appears it could be impacted on both sides, if the Orange alternative were to be chosen. As well, there are 3 mature trees that sit only 17-20 ft. from the curb on Rosemary.

2 other trees are only 15 ft. from the curb on St. Regis. 2 gas shut off caps are near the curb in the front yard. A man hole water lid is in the yard near the intersection. A fire hydrant at curb line on Rosemary, 2 telephone poles with electric lines at curb on Rosemary, and 2 more poles on St. Regis.

The Browning Music Studio business operates in our home. We have great concern for student access, noise level, dust and dirt that could damage the string instruments (cellos and basses) housed here.

For that matter, we fear that the vibrations and noise of heavy equipment could crack the foundation and/or walls of our home.

Sincerely,

Sharma Browning
