Subject: Case No. 16-253-GA-BTX

Reference: Case No. 16-253-GA-BTX

We are writing to voice our overwhelming concern for Duke Energy's Central Corridor Pipeline Extension proposal to build this in our residential neighborhood. There are multiple key concerns but the most compelling issue is definitely the safety concerns. Would you want this 30 inch diameter, high pressure/high capacity transmission pipe for natural gas going through your backyard??

We would urge that you consider the safety and well being of our community and the negative effect upon our city before allowing this project to go forward.

Regards,

Randall & Betty Kautz
