Subject: Pipeline Case No. 16-253-GA-BTX

I was thoroughly shocked to hear of a pipeline for natural gas which would run through our neighborhood, Tangleridge, in Blue Ash. Especially after hearing of a natural gas disaster that just occurred in Pennsylvania just a few days ago. At least that was not in a highly populated area but was still an inferno that could be felt several miles away. One blast like that would destroy our whole neighborhood and many lives would be lost.

We live in a quiet neighborhood. We treasure our nature preserve and treed areas. Deer live in those woods. That is what makes our neighborhood special. Not only are my neighbors on Bluewing Terrace affected but there are many apartments behind those homes full of people as well as a frequently visited Krogers also there. The pipeline would go through UC Blue Ash where there are hundreds of students every day. I cannot believe anyone would think to put such danger in our midst.

Please consider changing the location of the pipeline to a less populated area. I do not understand how the three choices run right through our city.

Sincerely,
Barbara Pordy
