

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of)
Glenwood Energy of Oxford, Inc. for) Case No. 15-680-GA-ATA
Approval of Revisions to Certain)
Portions of the Company's Tariff.)

FINDING AND ORDER

The Commission finds:

- (1) Glenwood Energy of Oxford, Inc. (Glenwood) is a natural gas company as defined in R.C. 4905.03 and a public utility as defined in R.C. 4905.02, and, as such, is subject to the jurisdiction of this Commission.
- (2) R.C. 4909.18 provides, in part, that a public utility may file an application to establish any rate, charge, regulation, or practice. If the Commission determines that the application is not for an increase in any rate and does not appear to be unjust or unreasonable, the Commission may approve the application without the need for a hearing.
- (3) On April 8, 2015, Glenwood filed an application to modify its tariffs. According to Glenwood, the modifications align its procedures with changes in the Commission's regulatory policy and changes in the ordinances of the city of Oxford, Ohio. Thereafter, on January 29, 2016, and February 11, 2016, Glenwood amended its application in order to incorporate recommended changes from the Commission's Staff.

Specifically, among other things, Glenwood proposes to incorporate, in the tariff, the current rules in Ohio Adm.Code Chapter 4901:1-14, which govern Glenwood's gas cost recovery (GCR) mechanism, and to add language to define availability of service, the extension of service, and charges associated with the installment of service. Further, Glenwood proposes modifications to assume

responsibility for curb-to-meter service lines and, therefore, asks to replace "customer service line" and its definition with "service line" and a corresponding definition. In addition, Glenwood requests to include City of Oxford Ordinance No. 3298, which establishes certain rates and charges other than GCR rates, as part of the tariff and language indicating that the ordinance supersedes previously tariffed rates.

- (4) On March 16, 2016, Staff filed a review and recommendation regarding the application. Staff asserts the application, as amended, is reasonable and recommends its approval.
- (5) The Commission finds that Glenwood's application to revise its tariffs, as amended, does not appear to be unjust or unreasonable and should be approved. The Commission notes that no party filed comments or motions to intervene in response to Glenwood's application to revise its tariffs. Finally, consistent with R.C. 4909.18, the Commission finds that no hearing is required in this case.

ORDERED, That Glenwood's application to update its tariffs, as amended on January 29, 2016, and February 11, 2016, be approved. It is, further,

ORDERED, That Glenwood be authorized to file tariffs, in final form, consistent with this Finding and Order. Glenwood shall file one copy in this case docket and one copy in its TRF docket. It is, further,

ORDERED, That the effective date of the new tariffs shall be a date not earlier than the date upon which the final tariff pages are filed with the Commission. It is, further,

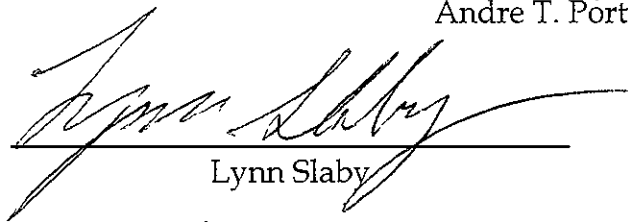

ORDERED, That nothing in this Finding and Order shall be binding upon this Commission in any subsequent proceeding or investigation involving the justness or reasonableness of any rate, charge, rule, or regulation. It is, further,

ORDERED, That a copy of this Finding and Order be served on all parties and interested persons of record.
