**Re: Clean Energy Future-Lordstown, LLC,  
OPSB Case No. 14-2322-EL-BGN**

Dear Ms. McNeal:

The September 17, 2015, Opinion, Order, and Certificate ("Certificate") approving Clean Energy Future-Lordstown, LLC ("CEFL") Certificate of Environmental Compatibility and Public Need to Construct the Lordstown Energy Center established a set of conditions as part of the Certificate.

Within this set of conditions, **Condition No. 30** requires that:

**The Applicant shall have a construction access plan, based on final plans for the access roads and types of equipment to be used, that addresses the concerns outlined in the Staff Report. Prior to commencement of construction, the Applicant shall submit the plan to Staff, for review and confirmation that it complies with this condition.**

The two traffic management plans, which were submitted with Condition No. 22 filed today, also contain the Construction Access Plans as provided for in Condition No. 30.

Thus, this letter is to inform the OPSB Staff that CEFL is in compliance with **Condition No. 30**.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
