Subject: Duke Energy proposed natural gas pipeline

Dear OPSB,

I am writing to voice my strong objections to the routing of the Duke Energy natural gas pipeline being built along any of the proposed or alternate routes within the City of Blue Ash, Ohio. Such a project should NEVER even be considered for siting so close to a residential neighborhood. Residents of these neighborhoods could suffer serious negative impact to their property values, not to mention the feelings of personal safety, if such a large scale industrial sized pipeline were to be built along any of these routes. The Plainfield Road route is the most objectionable as it would pass directly in front of an elementary school! I urge you to prevent this project from going forward along any of these routes that pass through or adjacent to residential neighborhoods within the City of Blue Ash.

Sincerely,

John McCaffrey
9691 Ash Ct.
Blue Ash, Ohio 45242
