

Case Number: 16-1220-EL-REN

A. Generating Facility

Name of Renewable Generating Facility: EDI Brown County LFGTE Power Station

The name specified will appear on the facility's certificate of eligibility issued by the Public Utilities Commission of Ohio.

Facility Location

Street Address: 9427 Beyers Road

City: Georgetown **State:** OH **County:** Brown **Zip Code:** 45121

Facility Latitude and Longitude

Latitude: 38°53'48.70"N **Longitude:** 83°54'11.36"W

There are internet mapping tools available to determine the latitude and longitude, if you do not have this information.

If applicable, U.S. Department of Energy, Energy Information Administration Form EIA-860 Plant Name and Plant Code.

EIA-860 Plant Name: Brown County LFGTE

EIA Plant Code: 22

B. Legal Name of the Facility Owner

Please note that the facility owner name listed will be the name that appears on the certificate.

The address provided in this section is where the certificate will be sent.

If the facility has multiple owners, please provide the following information for each on additional sheets.

Legal Name of the Facility Owner: Bio Energy (Ohio III) LLC

Legal Name of Facility Owner Representative: Chris D Eastgate

Title: Corporate Secretary

Organization: Energy Developments Inc

Street Address: 3322 West End Avenue Suite 115

City: Nashville **State:** TN **Zip Code:** 37203

Phone: 6155747560 **Fax:** 6153838737

Email Address: chris.eastgate@energydi.com

Web Site Address (if applicable): www.energydevelopments.com.au

C. List the name, address, telephone number and web site address under which the Applicant will do business in Ohio

Legal Name of Facility Owner Representative: Bio Energy (Ohio III) LLC

Title: Corporate Secretary

Organization: Energy Developments Inc

Street Address: 3322 West End Avenue Suite 115

City: Nashville **State:** TN **Zip Code:** 37203

Phone: 6155747560 **Fax:** 6153838737

Email Address: chris.eastgate@energydi.com

Web Site Address (if applicable): www.energydevelopments.com.au

D. Name of Generation Facility Operating Company

Name of Generation Facility Operating Company: Bio Energy (Ohio III) LLC

Legal Name of Contact Person: Bio Energy (Ohio III) LLC

Title: Corporate Secretary

Organization: Energy Developments Inc

Street Address: 3322 West End Avenue Suite 115

City: Nashville **State:** TN **Zip Code:** 37203

Phone: 6155747560 **Fax:** 6153838737

Email Address: chris.eastgate@energydi.com

Web Site Address (if applicable): www.energydevelopments.com.au

E. Regulatory/Emergency Contact

Legal Name of Contact Person: Bio Energy (Ohio III) LLC

Title: Corporate Secretary

Organization: Energy Developments Inc

Street Address: 3322 West End Avenue Suite 115

City: Nashville **State:** TN **Zip Code:** 37203

Phone: 6155747560 **Fax:** 6153838737

Email Address: chris.eastgate@energydi.com

Web Site Address (if applicable): www.energydevelopments.com.au

F. Certification Criteria 1: Deliverability of the Generation into Ohio

Ohio Revised Code (ORC) Sec. 4928.64(B)(3)

The facility must have an interconnection with an electric utility.

Check which of the following applies to the facility's location:

Yes The facility is located in Ohio.

No The facility is located in a state geographically contiguous to Ohio (IN, KY, MI, PA, WV).

No The facility is located in the following state:

(If the renewable energy resource generation facility is not located in Ohio, Indiana, Kentucky, Michigan, Pennsylvania, or West Virginia, you are required to submit a POWER FLOW study by one of the regional transmission organizations (RTO) operating in Ohio, either PJM or Midwest ISO, demonstrating that the power from the facility is physically deliverable into the state of Ohio. This study must be appended to the application as an exhibit. THE FACILITY MUST BE INTERCONNECTED TO TRANSMISSION LINES. FOR ADDITIONAL INFORMATION ON DELIVERABILITY REQUIREMENTS, PLEASE REFER TO THE COMMISSION FINDING & ORDER of 3/23/11 IN CASE NO. 09-555-EL-REN.)

G. Certification Criteria 2: Qualified Resource or Technology

You should provide information for only one resource or technology on this application; please check and/or fill out only one of the sections below. If you are applying for more than one resource or technology, you will need to complete a separate application for each resource or technology.

G.1. For the resource or technology you identify in Sections G.4 - G.13 below, please provide a written description of the system.

The Power Station will be a Landfill Gas to Electricity (LFGTE) Power Station. It will be located on the Rumpke Waste and Recycling landfill located at 9427 Beyers Road, Georgetown, Ohio 45121.

The LFGTE Power Station will comprise 3 CAT 3520 gas reciprocating engines, associated landfill gas treatment equipment, and electrical export equipment including a PJM approved interconnection into the local Duke electricity network.

The Power Station will exclusively use landfill gas as its fuel source when exporting electricity to the grid.

G.2. Please include a detailed description of how the output of the facility is going to be measured and verified, including the configuration of the meter(s) and the meter type(s).

All the electricity exported from the LFGTE Power Station will be sold to American Municipal Power (AMP Ohio) under a long term Power Purchase Agreement (PPA). The AMP Ohio PPA requires that a meter be installed that meets the requirements of:

- Duke Energy (the local electricity network operator)
- PJM
- That the meter be a Schneider ION 8650 socket meter (model B or greater)
- That the meter shall be a ANSO C12.20 class 0.2 certified revenue grade meter

AMP Ohio will read the meter via a satellite link and report the monthly data direct to PJM-EIS for recording in GATS.

G.3. Please submit digital photographs that depict an accurate characterization of the renewable generating facility. Please indicate the date(s) the photographs were taken. For existing facilities, these photographs must be submitted for your application to be reviewed. For proposed facilities or those under construction, photographs will be required to be filed within 30 days of the on-line date of the facility.

G.10__ BIOMASS (includes biologically-derived methane gas, such as landfill gas)

G.10a Identify the fuel type used by the facility:

Landfill gas: Yes

Solid fuel:

No Wood
No Agricultural
No Other

Wood and paper manufacturing waste: No

Biogas (anaerobic digestion):

No On-farm
No Wastewater treatment
No Food processing
No Other

Biofuel (biodiesel): No

Biomass (other): No

G.10b Describe the content (fully characterize the fuel material) and source of solid waste: The fuel source is landfill gas. Landfill Gas is typically around 50% methane (natural gas) with the balance being water, CO₂, and other no-methane organic compounds.

G.10c What is the expected heat content for each of the fuels used by the plant?

Landfill Gas typically has a Gross Heating Value of +/- 500 BTU per cubic foot.

G.10d Is the facility co-firing more than one fuel type? No

If co-firing an electric generating facility with a biomass energy resource, the proportion of heat input attributable to the biomass energy resource shall dictate the proportion of electricity output from the facility that can be considered biomass energy.

G.10e List all fuel types used by the facility and respective proportions (show by the percent of heat input):

100% Landfill Gas

G.10f Please submit (or input here) the formula for computing the proportions of output per fuel type by MWh or kWh generated:

100% from Landfill Gas

G.10g What is the projected annual gross generation from each fuel type?

33,600 MWh per annum

H. Certification Criteria 3: Placed-in-Service Date (Sec. 4928.64. (A)(1) O.R.C.)

The Renewable Energy Facility:

No has a placed-in-service date before January 1, 1998; Date:

No has a placed-in-service date on or after January 1, 1998; Date:

No has been modified or retrofitted on or after January 1, 1998; Date:

Please provide a detailed description of the modifications or retrofits made to the facility that rendered it eligible for consideration as a qualified renewable energy resource. In your description, please include the date of initial operation and the date of modification or retrofit to use a qualified renewable resource. Please include this description as an exhibit attached to your application filing and identify the subject matter in the heading of the exhibit.

Yes Not yet online; projected in-service date: March 01, 2017

H.1 Is the renewable energy facility owner a mercantile customer? No

ORC Sec. 4928.01 (19) "Mercantile customer" means a commercial or industrial customer if the electricity consumed is for nonresidential use and the customer consumes more than seven hundred thousand kilowatt hours per year or is part of a national account involving multiple facilities in one or more states.

Has the mercantile customer facility owner committed to integrate the resource under the provisions of Rule 4901:1-39-08 O.A.C? No

If yes, please insert/submit a copy of your approved application as an exhibit to this filing.

I. Facility Information

I.a The nameplate capacity of the entire facility kilowatts (kW): 4,800.00 (megawatts (MW): 4.8)

I.b If applicable, what is the expected heat rate of resource used per kWh of net generation:
BTU/kWh

I.1 For each generating unit, provide the following information:

<u>Unit In-Service</u> <u>Date</u>	<u>Unit Nameplate</u> <u>Capacity (MW)</u>	<u>Projected Gross</u> <u>Annual Generation</u>	<u>Expected Annual</u> <u>Capacity Factor %</u>	<u>Number of</u> <u>Generating Units</u>
3/1/17	1.6	11,200	79.9	3

$$\text{Capacity Factor \%} = \frac{\text{Projected Annual Generation}}{\text{Nameplate Capacity} \times 8,760} \times 100$$

J. Regional Transmission Organization Information

In which Regional Transmission Organization area is your facility located:

Yes Within Geographic Area of PJM Interconnection, L.L.C.

No Within Geographic Area of Midwest ISO

No Other (specify):

K. Attribute Tracking System Information

Are you currently registered with an attribute tracking system: No

In which attribute tracking system are you currently registered or in which do you intend to register (*the tracking system you identify will be the system the PUCO contacts with your eligibility certification*):

Yes GATS (Generation Attribute Tracking System)

No M-RETS (Midwest Renewable Energy Tracking System)

Other (specify):

K.1 Enter the generation ID number you have been assigned by the tracking system:

(If the generation ID number has not yet been assigned, you will need to file this number in the PUCO Case Docket within 15 days of the facility receiving this number from the tracking system).

K.2 Has any of the generation of the facility been tracked as RECS that have been sold or otherwise consumed? No

L. Other State Certification

Is the facility certified by another state as an eligible generating resource to meet the renewable portfolio standards of that state? No

L.1 If yes, for each state, provide the following information:

<u>Name of State</u>	<u>State Certification Agency</u>	<u>State Certification Number</u>	<u>Certification Date Issued</u>
----------------------	-----------------------------------	-----------------------------------	----------------------------------

M. Type of Generating Facility

Please check all of the following that apply to the facility:

- No Utility Generating Facility:
- No Investor Owned Utility
- No Rural Electric Cooperative
- No Municipal System
- No Electric Services Company (competitive retail electric service provider certified by the PUCO)
- No Distributed Generation with a net metering and interconnection agreement with a utility.
Identify the Utility:
- No Distributed Generation with both on-site use and wholesale sales.
Identify the Utility:
- Yes Distributed Generation, interconnected without net metering.
Identify the Utility: Duke Energy

N. Meter Specifications

Metering Requirements

- 1. If the renewable energy resource generating facility is 6 kW or below, the output may be measured with either an inverter meter or a utility grade meter.***
- 2. All facilities that are larger than 6 kW must measure the output of the facility with a utility grade meter. Facilities that are larger than 6 kW and that are not measuring output with a utility grade meter will not be certified. OAC 4901:1-40-04 (D)(1)***
- 3. Please only report on the meter or the meters used to measure the output from the facility which will be reported to the attribute tracking system.***

N.a The meter(s) that are measuring output from the facility are:

Inverter Meter(s)

Utility Grade Meter(s) *(Must meet ANSI 12.1, or demonstrate an accuracy level of $\pm 2\%$)*

N.1 Please provide the following information for each meter used in your system.

N.1.a Manufacturer:

N.1.b Serial Number:

N.1.c Type:

N.1.d Date of Last Certification:

Attach a photograph of the meter(s) with date image taken. The meter reading(s) must be clearly visible in the photograph.

N.1.e Report the total meter reading number at the time the photograph was taken and specify the appropriate unit of generation (e.g., kWh):

Public Utilities Commission

Affidavit for Application for
Certification as an Eligible Ohio
Renewable Energy Resource
Generating Facility

Please be advised that all applicant's contact information, including address and telephone number, will be made public and is not subject to confidential treatment. Additionally, any information pertaining to trade secrets contained within the application will be made public unless filed under seal with a motion for protective order, pursuant to Rule 4901-1-24 of the Ohio Administrative Code.

Case Number: 16-1220-EL-REN

Facility Address: 9427 Bayers Road
Georgetown, OH 45121

Name of person making this affidavit: Chris D Eastgate

State of TN
County of Davidson

The undersigned, being duly sworn according to law, deposes and says that:

1. I am authorized to and do hereby make this affidavit on behalf of the Applicant,
2. All facts and statements made in the application for certification, including all attachments and supplemental information or filings, are true and complete to the best of my knowledge, information, and belief,
3. The facility has obtained or will obtain and will maintain all required local, state, and federal environmental permits,
4. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

_____, Corporate Secretary

Sworn and subscribed before me this 31st day of May, 2016 Month/Year

Notary

My commission expires on 5/8/2018

The Public Utilities Commission of Ohio reserves the right to verify the accuracy of the data reported to the tracking system and to the PUCO.

Version: June 3, 2013

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on

Case No(s). 16-1220-EL-REN

Summary: Application Application for 16-1220 EL-REN Renewable Energy Resource
Generating Facility certification for the Bio Energy (Ohio III) LLC Brown County 4.8MW
LFGTE Power Station in Ohio electronically filed by Mr. Chris D Eastgate on behalf of Bio
Energy (Ohio III) LLC
