Subject: Duke Energy Pipeline Extension

Ohio Power Siting Board:

It's hard to believe that this high-pressure pipeline extension into residential neighborhoods is even being considered by the State at the request of Duke Energy. Going through our neighborhoods, next to our schools, business, and places of worship, and the fact that public safety could be threatened is just entirely unacceptable. In addition, woods, old-growth trees, and landscapes will be threatened as well as property values. I have not heard of even one benefit to any of the communities as a result of this proposed pipeline extension. Please keep it simple and vote no or this may be tied up in the courts for years.
