ATTORNEY GENERAL'S OFFICE
PUBLIC UTILITIES SECTION

To whom this may concern I Barron Young would like to enter a brief in my case. At the hearing I provided proof from my phone carrier that I was not texting while Driving a Commercial Vehicle. The Law states that I can not be texting while driving or if you have to be on a call it has to be hands free I was doing neither, the law does not say you can not have a phone in hand. What's the difference in having a phone or any other Object in hand for that matter. I picked the phone up off the floor and placed it on the dash board that taken all of 2 seconds. I never lost focus while driving I didn't want the phone to slide underneath the pedal and that itself could have cause and accident.
