COMMENTS: Duke Energy wants to run a massive high-pressure natural gas pipeline directly through densely populated neighborhoods alongside schools, hospitals, day care centers, places of worship and retail shopping areas in the Cincinnati area. This scope of this gas pipeline is unprecedented and also poses a massive safety hazard. An explosion could kill or injure thousands of residents within the pipeline's path. Duke Energy is undeterred. When construction is complete, Duke will effectively be allowed to regulate itself. Please step up and protect the people that you are supposed to serve. Demand that high-pressure gas transmission lines remain clear of densely populated areas. Enact stronger safety protections around the placement and inspection of these pipelines. Say NO to the Central Corridor Gas Pipeline Extension Project (OPSB case no. 16-0253-GA-BTX).
