Mr. Asim Z. Haque  
Chairman, Public Utilities  
Commission of Ohio  
180 East Broad Street  
Columbus, OH 43215

RECEIVED - PUBLIC UTILITIES  
2016 JUN 15 PM 12:40  
PUCO

Dear Mr. Haque:

On behalf of the Village of Golf Manor Council, residents and business owners, I am writing to you regarding the proposed Central Corridor Gas Pipeline Extension Project (Case No. 16-253-GA-BTX). We understand that this project is designed to bring an increased volume of natural gas into the Cincinnati area. While we understand this goal, as well as the need to continuously improve the utility service infrastructure, we remain concerned that the proposed routes for the pipeline run through densely populated neighborhoods, including the Village of Golf Manor.

Here in Golf Manor, this project would be disruptive to properties impacted in both the short and the long term. We and our constituents are concerned about the safety issues related to natural gas pipelines as well as the proposed removal of trees and proposed barriers and future serviceability of land acquired in impacted areas.

We have requested the Ohio Power Siting Board, Public Utilities Commission of Ohio and Duke Energy to keep in mind that smaller urban communities, such as Golf Manor, work diligently to contain expense for taxpayers while providing excellent critical services. A project of this magnitude will not only disrupt the peace of the community during construction, but will leave Golf Manor with the responsibility, cost, and aftermath of managing any catastrophic event that may take place due to the failure of Duke Energy's pipeline.

Safety is of critical importance. The potential harm to the environment and loss of life in such a densely populated area is of alarm to elected officials and residents alike should there be a failure of the pipeline. As mayor, I am concerned at the lack of engagement with local first responders, in particular the Golf Manor Fire Department, or any safety organization, regarding the support Duke Energy will require or impose upon this Village should this project be built. I anticipate that valuable economic resources will need to be diverted from other essential needs to additional training and equipment required to support any catastrophic failure.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.  
Technician AW Date Processed 6/15/16

Finally, Mr. Haque, we would request as the Board, PUCO and Duke Energy decide what best routes will be taken, you remind all involved to consider the potential financial impact this project will have not only on government's ability to be fiscally responsible, but also on residential and business property values, property insurance rates and the quality of life in the Village for our residents.

*I would appreciate your encouragement to the Ohio Power Siting Board, Public Utilities Commission of Ohio and Duke Energy to reevaluate the Central Corridor Gas Pipeline Extension Project and find better alternatives that do not rip apart the fabric of these densely populated and settled communities in the heart of Hamilton County.*

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Ron Hirth". The signature is written in a cursive style with a prominent dot over the 'i'.

Ron Hirth  
Mayor,  
Village of Golf Manor, Ohio
