In the Matter of the Application of Ohio Power Company for Approval of Its Energy Efficiency/Peak Demand Reduction Portfolio Plan

Case No. 16-0574-EL-POR

# MOTION TO INTERVENE BY THE ENVIRONMENTAL LAW & POLICY CENTER

Pursuant to Ohio Revised Code 4903.221 and Ohio Administrative Code 4901-1-11, the Environmental Law & Policy Center ("ELPC") respectfully moves to intervene in the abovecaptioned proceeding. As explained more thoroughly in the attached Memorandum in Support, ELPC has a real and substantial interest in this case, in which Ohio Power Company seeks approval from the Public Utilities Commission of Ohio for it energy efficiency and peak demand reduction program portfolio plan for 2017 through 2019. Additionally, the interests of ELPC are not adequately represented by any other party to this matter and its participation in this proceeding will contribute to a just and expeditious resolution of the issues and questions. Further, ELPC's participation will not unduly delay the proceedings or prejudice any other party.

ELPC respectfully requests this Commission grant its motion to intervene for these

reasons and those set forth in more detail in the attached Memorandum in Support.

June 20, 2016

Respectfully submitted,

In the Matter of the Application of Ohio Power Company for Approval of Its Energy Efficiency/Peak Demand Reduction Portfolio Plan

Case No. 16-0574-EL-POR

### MEMORANDUM IN SUPPORT OF THE MOTION TO INTERVENE BY THE ENVIRONMENTAL LAW & POLICY CENTER

Ohio Revised Code ("R.C.") 4903.221 states that "[a]ny other person who may be adversely affected by a public utilities commission proceeding may intervene in such proceeding" provided the Public Utilities Commission of Ohio ("PUCO" or "Commission") makes certain determinations. The Environmental Law & Policy Center ("ELPC") is a nonprofit environmental advocacy organization whose mission is to improve the Midwest's environmental quality and economic development. ELPC is an advocate for both environmental health and sustainable economic development. As a regional organization with a presence and members in Ohio, ELPC and its members may be adversely affected by the outcome of this proceeding, and its interests are not adequately represented by the other parties hereto.

R.C. 4903.221 requires the Commission to consider four factors when presented with a motion to intervene. In addition, the Commission's procedural rules at Ohio Administrative Code ("Ohio Adm. Code") 4901-11-1 similarly provide that it shall consider five factors when weighing a motion to intervene. ELPC's motion meets all of the factors required by statute and rule.

Pursuant to R.C. 4903.221, the Commission must consider:

(1) The nature and extent of the prospective intervenor's interest;

(2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case;
(3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings; [and]
(4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues.

#### R.C. 4903.221(B).

With respect to the first factor, ELPC has a substantial interest in the application of the Ohio Power Company ("AEP" or "Company") for approval of its proposed 2017-2019 Energy Efficiency/Peak Demand Reduction Program Portfolio Plan. ELPC has an interest in ensuring the protection and promotion of cost-effective clean and efficient energy in the state, and is a regular participant in AEP's stakeholder collaborative regarding energy efficiency and peak demand reduction efforts. Further, ELPC has members in Ohio and its work focuses on Ohio energy and environmental issues. AEP's application affects these interests because it will determine the design and implementation of energy efficiency and peak demand reduction programs in AEP service territory for the 2017-2019 time period.

As to the second factor, because of the potential impacts on ELPC and its Ohio members, ELPC seeks to ensure AEP's application meets the applicable legal requirements, and if not, recommend appropriate solutions. Additionally, ELPC seeks the Commission's careful scrutiny of AEP's proposal to ensure it is reasonably designed to deliver cost-effective energy efficiency and demand response for AEP customers.

Under the third factor, ELPC's inclusion will not unduly delay or prolong the proceeding. The Commission has not yet set a procedural schedule for the case, and ELPC is committed to working within any schedule that is imposed by this Commission to achieve the efficient and orderly disposition of the questions presented. Finally, ELPC will significantly contribute to the full development and resolution of the

proceeding by bringing its unique perspective to bear. ELPC has expertise and experience

throughout the Midwest regarding clean energy policy that will contribute to resolving the

pending issues. ELPC has participated in multiple proceedings in Ohio as well as other states

regarding energy efficiency and peak demand reduction programs.

Similarly, ELPC meets the requirements set forth in Ohio Adm. Code 4901-11-1(B):

(1) The nature and extent of the prospective intervenor's interest;

(2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case;

(3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings;

(4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues; [and]

(5) The extent to which the person's interest is represented by existing parties.

The first four factors mirror those in R.C. 4903.221, and for the same reasons as stated above,

ELPC meets those factors. As to the fifth, ELPC maintains that no other party can adequately

represent its interests as a regional environmental advocacy organization that also focuses on

"green" economic development, including new manufacturing and job creation.

Finally, this Commission's policy is to "encourage the broadest possible participation in

its proceedings." Cleveland Elec. Illum. Co., Case No. 85-675-EL-AIR, Entry at 2 (January 14,

1986). ELPC's inclusion in this proceeding will contribute to this goal of broad participation in

PUCO proceedings.

Because ELPC meets the criteria set forth in both R.C. 4903.221 and Ohio Adm. Code

4901-11-1, it respectfully asks this Commission to grant its motion to intervene in the above-

captioned proceedings.
