COMMENTS: 1) It's difficult to understand your process chart and some of the terminology. Am I correct that the earliest date Duke Energy can submit its pipeline proposal to OPSB is July 15?

2) What agency in the State of Ohio is responsible for overseeing safety of this pipeline. As I understand it, Duke inspects the pipeline and makes repairs, but what Ohio governmental or neutral agency does Duke report to that inspects Duke's work and designates safety standards that Duke must follow?

Thank you
