CASE_NUMBER: OPSB # 16-0253-GA-BTX

COMMENTS: I have been asked by many of the residence in Reading to Oppose the proposed Duke Energy Compressed Natural Gas Pipeline Extension in Hamilton County. Duke Energy is proposing to construct a 30" inch diameter pipeline to convey natural gas along one of three proposed pipeline routes through highly populated areas. Why not rural routes with less densely populated areas? Similar pipeline's have experienced accidental ruptures and have resulted in explosions. The pressure of 720 PSI for this 30" pipeline would have catastrophic effects on populated areas. It has been told to me that the decision has not been made and may have been delayed for 30 days. Please give this your undivided attention as many, many lives will be affected by your decision.
