I have lived in Sycamore Township for over 20 years. It is a beautiful vibrant community, a great place to live and raise a family. I was dismayed to hear about the natural gas line that Duke Energy is proposing to build right through the heart of our community (Case 16-0253-GA-BTX). We do not need a project like this in a highly populated residential area. We have churches, schools and hospitals that will be near the proposed pipeline. Our property will be damaged. Trees that are many years old will be destroyed. Safety of our citizens and protection of the environment are crucial issues. For the well-being and safety of the people of this community, please do not approve this pipeline.
