4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations - FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

speed and data usage allowances available in the

relevant geographic area.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband

Line 330 - Unfulfilled Broadband Service Request Resolution

Ohio - SAC 305062

Cincinnati Bell Telephone ("CBT") determined the number of unfulfilled broadband service requests based on on-line inquiries and calls to a service representative regarding the availability of broadband service at a particular location. Those who inquired and asked to be notified when broadband service of 10 Mbps or greater became available at their location were considered as unfulfilled requests. CBT maintains a list of these unfulfilled requests. As CBT expands the reach of its broadband network it notifies customers in a newly served area when its broadband service becomes available. Of the unfulfilled requests reported on Line 320, 147 have subsequently subscribed to CBT's broadband service.

Cincinnati Bell Telephone Company LLC Service Quality Standards & Consumer Protection Rules Compliance Ohio – SAC 305062

Service Quality Standards

CBT has established procedures to ensure compliance with applicable service quality standards established by the state utility commissions and the FCC.

Consumer Protection Rules

CBT has procedures and processes in place to ensure compliance with applicable consumer protection rules, including, but not limited to: protection of CPNI as documented in its annual CPNI certification filed in EB Docket No. 06-36; FCC's Truth-in-Billing rules (47 C.F.R. § 64.2400 *et al*); Telemarketing rules (47 C.F.R. §64.1200 *et al*); Slamming rules (47 C.F.R. §64.1100 *et al*); Open Internet rules (47 C.F.R. §8.1 *et al*), and CVAA requirements (47 C.F.R. Parts 6, 7 and 14). CBT also has processes and procedures in place to address consumer complaints filed with the state utility commissions as well as complaints filed under section 208 of the Communications Act in compliance with 47 C.F.R. §\$1.711 through 1.736. In addition, CBT provides 911 service throughout its service area.

Cincinnati Bell Telephone Company LLC Functionality in Emergency Situations Ohio - SAC 305062

4901:1-6-31 Ohio Administrative Code - Emergency and Outage Operations

- (A) Each facilities-based local exchange carrier (LEC) shall design, operate, and maintain its facilities to continue to provide customers with the ability to originate and receive calls at all times. The commission will utilize existing FCC rules applicable to emergency and outage operations. Companies shall submit outage reports utilizing, at the company's discretion, either existing FCC reports or a format determined by the commission.
- (B) Each facilities-based LEC shall submit, within two hours of discovery, to the commission's outage coordinator and when appropriate, the news media in the affected area, a notification that it has experienced an outage, whenever that outage occurs on any facility that it owns, operates, leases or otherwise utilizes and is both:
 - (1) Expected to last for a period in excess of thirty minutes.
 - (2) Potentially affects at least nine hundred thousand user minutes in the incumbent local calling area.
- (C) Each facilities-based LEC shall report, by telephone or electronic means, a disruption of 9-1-1 services, which impairs 9-1-1 service within a given county 9-1-1 system, immediately to each county 9-1-1 public safety answering point, to the Ohio 9-1-1 coordinator, and to the news media in the affected area, when appropriate.
- (D) Each facilities-based LEC experiencing a loss of communications or selective routing to a public safety answering point, as a result of an outage described under paragraphs (B) and (C) of this rule, shall also notify, as soon as possible, by telephone or electronic means, any official who has been designated by the management of the affected 9-1-1 facility as the LEC's contact person for communication outages at that facility; and the LEC shall convey to that person all available information that may be useful to the management of the affected facility in mitigating the effects of the outage on efforts to communicate with that facility.
- (E) Each facilities-based LEC experiencing an outage described under paragraphs (B) and (C) of this rule, shall electronically submit to the commission's outage coordinator the same information as that provided to the FCC or the following information:
 - (1) A notification that it has experienced a outage, which shall include the name of the reporting entity, the date and time of the onset of the outage, a brief description of the problem, the particular service affected, the geographic area affected by the outage, the number of customers affected, an estimate of when the service, including 9-1-1, will be restored, and a contact name and telephone number by which the commission's outage coordinator may contact the reporting entity.

- (2) Not later than seventy-two hours after discovering the outage, an initial communications outage report, which shall include all pertinent information then available on the outage and shall be submitted in good faith.
- (3) Not later than thirty days after discovering the outage, the provider shall submit electronically a final communications outage report, which shall include all pertinent information on the outage, including any information that was not contained in, or that has changed from that provided in, the initial report.
- (F) Each facilities-based LEC shall develop, implement, and maintain an emergency plan and make it available for review by commission staff. The plan shall include, but not be limited to, all of the following:
 - (1) Procedures for maintaining and annually updating a list of those customers who have subscribed to the federal telecommunications service priority program, as identified in 47 C.F.R. 64, appendix A.
 - (2) Procedures for priority treatment in restoring out-of-service trouble of an emergency nature for customers with a documented medical or life-threatening condition.
 - (3) In addition to the telecommunications service priority program, each LEC shall develop policies and procedures regarding those customers who require priority treatment for out-of-service clearance. Such procedures shall include a table of restoration priority, including, but not limited to, subscribers such as police and fire stations, hospitals, key medical personnel, and other utilities.
 - (4) Procedures for restoring service to priority critical facilities customers.
 - (5) Identification and annual updates of all of the facilities-based LEC's critical facilities and reasonable measures to protect its personnel and facilities.
 - (6) Assessments and evaluations of telecommunications facilities available to provide back-up service capabilities.
 - (7) Procedures for after-action assessments and reporting following activation of any part of the emergency plan. An after-action report will be written and will include lessons learned, deficiencies in the response to the emergency, and deficiencies in the emergency plan.
 - (8) A current list of the names and telephone numbers of the facilities-based LECs' emergency service personnel to contact and coordinate with in the event of any real or anticipated local or national threats to its ability to provide telecommunications service.
 - (9) A current list of the names and telephone numbers of the facilities-based LEC's emergency service personnel that is made available to the commission's emergency coordinator, upon request.

- (10)A continuity of operations plan to assure continuance of minimum essential functions during a large scale event in which staffing is reduced. Such plans shall provide for:
 - (a) Plan activation triggers such as the world health organization's pandemic phase alert levels, widespread transmission within the United States, or a case at one or more locations within Ohio.
 - (b) Identification of a pandemic coordinator and team with defined roles and responsibilities for preparedness and response planning.
 - (c) Identification of minimal essential functions, minimal staffing required to maintain such essential functions, and personnel resource pools required to ensure continuance of those functions in progressive stages associated with a declining workforce.
 - (d) Identification of essential employees and critical inputs (e.g., raw materials, equipment, suppliers, subcontractor services/products, and logistics) required to maintain business operations by location and function.
 - (e) Policies and procedures to address personal protection initiatives.
 - (f) Policies and procedures to maintain lines of communication with the public utilities commission of Ohio during a declared emergency.
- (G) Each facilities-based LEC shall amend its emergency plan in accordance with the findings identified in the after-action assessment report required under paragraph (F)(7) of this rule.

Review of CBT Ohio Facilities and Processes to Remain Functional in Emergency Situations

CBT has processes and procedures in place to comply with the requirements 4901:1-6-31 (F) O.A.C., including the following:

Batteries and Generators

All CO's (and critical ORM's) have appropriately sized generators to carry and hold the CO's for at least 18 to 24 hours and also have wet cell batteries sized to provide 6 to 8-hours of back-up power for all telecom equipment. All ORMs have wet cell batteries sized for 6 to 8-hours of back-up power and approximately 25% of the ORM building portfolio has back-up generators installed on-site. All bulk power sites (CEV's, CEC, hut and cabinets, etc.) have 7-year warranty batteries with 6-8 hours of battery back-up power. All SLC sites have 5-year warranty batteries. Finally, CBT has portable generators within the network that can be marshaled to a site if an on-site generator fails or a site without a generator needs to ride-out an emergency situation.

Diverse Facilities

CBT has circuit redundancy and route diversification built into the landline Network for all class 5 Central Offices, including Lucent 5E and Nortel DMS10 offices, as well as SS7 diversification and a robust optical SONET Transport Network. However, if/when a network outage does occur, as in the case of a cable/fiber cut that isolates segments of the Landline Network, the Network Operation Center, which

monitors the entire CBT Network, is able to quickly identify the outage condition, prioritize restoration efforts, including critical circuits/customers affected, and work with other internal groups to determine alternate routing that may be required to restore service and maintain traffic flow. Specifically, the NOC first utilizes TIRKS to determine if spare cable/fiber pairs are available to roll the affected circuits. If so, the NOC works with the Central Office technicians and cable maintenance crews to utilize the spare facilities. If spare facilities are not available, the NOC then works with the planning engineering group, as well as the facilities design group to re-design the cable/fiber routes. The NOC is a 24X7 operation, and utilizes documented callout personnel from various internal departments as necessary during off hours to ensure facilities and network traffic are re-routed as soon as possible. The Cincinnati Bell NOC acts as a Control Center during network outages and communicates progress internally during restoration efforts, including facility routing. In the case of a catastrophic network event, emergency policies/procedures are also implemented and restoration efforts are coordinated with the Disaster Recovery Team.

Congestion Management of Traffic Spikes

CBT manages network congestion resulting from emergency situations using a number of techniques including the use of call gapping and line load control features. In addition, if necessary CBT may be able access spare capacity in some areas to relieve traffic spikes resulting from emergency situations.

Cincinnati Bell Telephone Company LLC Description of Voice Services Rate Comparability Ohio – SAC 305062

As shown on the attached file for Line 700 (Company Voice Telephony Service Price Offerings), Cincinnati Bell Telephone Company LLC's ("CBT") highest rate for voice service (excluding the federal SLC) in Ohio is \$30.45. CBT's federal SLC is \$5.31. Therefore the highest rate for voice service (local rate plus federal SLC) in CBT's Ohio study area is \$35.76, which is below the "reasonable comparability benchmark" of \$41.07.

Cincinnati Bell Telephone Company LLC Description of Broadband Services Rate Comparability Ohio – SAC 305062

As shown on the attached file for Line 710 (Company Broadband Price Offerings), Cincinnati Bell Telephone Company LLC ("CBT") has a single non-promotional rate throughout its service area for each broadband speed tier; therefore, the rate in rural areas is the same as the rate urban areas. In addition, none of CBT's broadband offerings have a usage allowance and the rates for all of CBT's speed tiers are below the reasonable comparability benchmarks set by the FCC.
