Subject: Fw: Gas pipeline OPSB case#16-0253-GA-BTX

As a 40 year homeowner of a property directly affected by this pipeline I am appealing to you to find another solution to this outrageous proposal. Not only would this adversely affect our property values but it could be a serious hazard to our lives. We have large mature trees on our property that buffer the noise from the Ronald Reagan Highway. The highway is directly behind our property. Not only do I not want to see our beautiful shade trees removed but also our outbuildings and other structures we have built. This has been our home for almost our entire lives and we do not want this in our yard. We love this community and do not want to see it go downhill. The danger from this pipeline could be horrific. Past explosions have proven this. No one would willingly buy a property that has a potential bomb going through their backyard. Please re-think this proposal. There has to be a better solution.

Mary Jean Carter 3548 Glengary Ln. Cincinnati OH 45236
