Subject: Gas Pipeline

We understand Duke has a desire to place a proposed 30" diameter, 600+psi flow pipeline through Madeira and our neighborhood(s). This will destroy our community, neighborhood, and property.

There are too many alternative routes with areas and neighborhoods being developed or redeveloped that could accommodate the pipeline. Working with DOT to allow easement is another reasonable alternative, both 71 and 75 are currently a mess. There is no need to take an established, well kept community and destroy it.

We oppose this pipeline coming through Madeira, we would like to express this to you and would like to know who else would be best recipients of our position.

Thank you!
Bob & Mary Ahlers
