**Re: Clean Energy Future-Lordstown, LLC,
OPSB Case Nos. 14-2322-EL-BGN and 16-494-EL-BGA**

Dear Ms. McNeal:

The September 17, 2015, Opinion, Order, and Certificate (“Certificate”) approving Clean Energy Future-Lordstown, LLC (“CEFL”) Certificate of Environmental Compatibility and Public Need to Construct the Lordstown Energy Center established a set of conditions as part of the Certificate. On June 30, 2016, the Ohio Power Siting Board (OPSB”) approved CEFL’s application for a second amendment subject to the conditions set forth in the Certificate case (“Second Amendment”).

Within this set of conditions, **Condition No. 5** requires that:

The Applicant shall conduct a preconstruction conference prior to the start of any construction activities. Staff, the Applicant, and representatives of the prime contractor and all subcontractors for the project shall attend the preconstruction conference. The conference shall include a presentation of the measures to be taken by the Applicant and contractors to ensure compliance with all conditions of the certificate, and discussion of the procedures for on-site investigations by Staff during construction. Prior to the conference, the Applicant shall provide a proposed conference agenda for Staff review. The Applicant may conduct separate preconstruction meetings for various stages of construction.

A preconstruction meeting was held on July 18, 2016 for the construction of the temporary work areas, access road, and the storm water line as approved in the Second Amendment. A copy of the agenda from the July 18, 2016 preconstruction meeting is attached. Thus, this letter is to inform the OPSB Staff that CEFL is in compliance with **Condition No. 5** for the Second Amendment
