PUCO

Dear Ohio Power Siting Board:

Last night's forum on the Duke Energy Central Corridor Pipeline Extension, hosted by the Hamilton County Commissioners at the Sharonville Convention Center, continued to show the residents of SW Ohio that Duke Energy's leadership is ignorant, disrespectful, and quite simply disregarding the safety and wellbeing of our families. For several months, Duke Energy has stonewalled city leaders and residents with absurd propaganda about the pipeline, while belittling those who have expressed concerns. We cannot stand to have our homes, businesses, schools, hospitals, parks, and places of worship ransacked, so they can transmit high volumes of natural gas under the guise of serving the public's energy needs. At the end of the day, this is simply big business trashing the little guy. This project needs to be stopped!

Please stand together with Hamilton County leaders and residents in rejecting this application. We deserve better and cannot tolerate Duke Energy's planned assault on our communities.

Best regards,

Kelby Wyse
