**Subject:** New Hamilton County Pipeline

To whom it may concern~

We live close to the "Blast Zone" and are fearful what could happen to us in the future if your BIG new pipe that might be coming our way lets lose!!! I do understand that people do need natural gas for fuel but enough is enough. We do **NOT** need or want one that is so much larger than any we have had not to say anything about its being much more powerful. We live near schools, daycare centers, and several churches. Thus it is a densely populated area. **PLEASE** if we do need new piping, replace it with what we have had in the past.

My thanks for listening,  
Katie Robertshaw
