RE: In the Matter of the Commission's Consideration of Telephone Safety Valve Requests and Other Number Resource Related Filings, PUCO Case No. 10-0884-TP-UNC

Dear Ms. McNeal:

Accompanying this letter is a Petition of Cincinnati Bell Extended Territories LLC for Review of a Decision of the Number Pooling Administrator to be filed in connection with the above referenced proceeding. This Petition and attachments are being filed electronically and are contained entirely within this PDF document. Questions regarding this filing may be directed to me at the above address or by telephone at (513) 397-6671.

Sincerely,

A handwritten signature in blue ink that reads "Patricia L. Rupich".

Patricia L. Rupich

In the Matter of the Commission's)	
Consideration of Telephone Safety Valve)	Case No. 10-0884-TP-UNC
Requests and Other Number Resource)	
Related Filings)	

**PETITION OF CINCINNATI BELL EXTENDED TERRITORIES LLC
FOR REVIEW OF A DECISION OF THE POOLING ADMINISTRATOR**

Cincinnati Bell Extended Territories LLC (“CBET”) hereby requests that the Commission review and overturn a decision of the number Pooling Administrator (“PA”) which denied a CBET request for numbering resources. On August 16, 2016, CBET filed a request with the PA seeking 2,000 contiguous numbers in the Mason rate center to meet a specific customer request that CBET was unable to satisfy with its existing numbering resources. The PA denied CBET’s request on the grounds that CBET does not meet the months-to-exhaust criteria established by the Federal Communications Commission (“FCC”). Under the federal numbering rules, a state commission may overturn the PA’s decision based on its determination that the carrier has demonstrated a verifiable need for the numbering resources and has exhausted all other available remedies.¹ For the reasons set forth below, CBET submits that the Commission is justified in overturning the PA’s decision and granting CBET’s request for two thousands blocks to meet this customer’s needs.

In its Third Report and Order in the Numbering Resource Optimization proceeding, the FCC found that “a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier’s inability to satisfy a specific

¹ 47 CFR 52.15(g)(4).

customer request.”² It also clarified that states may grant requests by carriers in such circumstances, as long as the request is for a customer seeking contiguous blocks of numbers and not vanity numbers.³ Therefore, this Commission has the authority to overturn the PA’s decisions under the appropriate circumstances.

Mercy Health’s Request

In the immediate case, CBET has a request from Mercy Health for 2,000 contiguous numbers in the Mason rate center to be used at its new Mercy Mason Campus in Mason, Ohio. According to Mercy Health, over 1,200 employees will work at this new facility which will support a call center and other administrative functions. The numbers will be used for these employee lines as well as fax lines, alarms and other patient support applications. As explained in Mercy Health’s letter (see Attachment A), it can use numbers from any NXX or thousands-block, as long as the 2,000 numbers are consecutive. The use of consecutive numbers at this facility will enable Mercy Health to maintain a uniform numbering plan.

CBET has reviewed its number inventory and it does not have 2,000 contiguous numbers available in the Mason rate center. CBET’s utilization in the Mason rate center is more than 85%, however, as shown on the attached Pooling Administration System Worksheet, CBET’s request for two new thousands blocks to serve this customer was rejected because it does not meet the Months to Exhaust threshold (see Attachment B).

As indicated in the customer’s letter, it plans to open the Mason call center on September 23, 2016. So as not to delay the opening of the call center, CBET requests

² Numbering Resource Optimization, *Third Report and Order and Second Order on Reconsideration*, CC Docket No. 96-98 and CC Docket No. 99-200, FCC 01-362 (rel. Dec. 28, 2001) at ¶64.

³ *Id.*

that Commission consideration of this Petition be expedited so that CBET can file a new Thousands-Block Application with the PA no later than September 1, 2016.

Conclusion

For the reasons set forth above, CBET requests that the Commission overturn the PA's decision and direct the PA to grant CBET's requests for two thousands blocks in the Mason rate center to satisfy the needs of its customer. Furthermore, CBET requests that the Commission act expeditiously on this request.

Respectfully submitted,

/s/ Patrick M. Crotty

Columbus, OH 43215

August 15th, 2016

Dear Commissioner's,

Please accept this letter as a formal request for a block of 2,000 consecutive DID numbers that will be used for our new Mercy Mason Campus in Mason Ohio. The need for this request is created by Mercy Health's continued growth and commitment to patients we serve. Mercy Health is the largest health system in Ohio with 30,000+ employees, and also the fourth largest employer in the state.

This location will staff approximately 1200 people consisting of call center agents, admin and other Mercy Teams that have a direct impact on patient access, scheduling, customer service and financial counseling. Numbers will also be used for fax lines, alarms and other patient support applications. Consecutive numbers are desired to facilitate a uniform numbering plan that is consistent with the Mercy Health Enterprise 5 digit dialing plan. Mercy Health does not require any specific range or have any numbers that we cannot use as part of this request.

Please consider our request for 2,000 consecutive DID numbers to support our growing health care organization. Because our Mason call center goes live September 23rd 2016, we would appreciate expedited consideration for this request. If there are any questions or additional information required please feel free to contact me.

Respectfully,

Jeff McAfee
Mercy Health
Senior Telecom Engineer/Team Lead, Telecommunications

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia Technologies, Inc. dba Iconectiv (iconectiv™) LERG™ Routing Guide⁴. The Operating Company Number (OCN) assigned to the service provider and the OCN of its parent company. An OCN is a four-character alphanumeric NECA-assigned Company Code or a four-character alphanumeric identifier assigned by the Iconectiv™ Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS or VoIP. Also indicate the primary type of business in

which the numbering resource is to be used. Service Providers may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool except when a service provider is exiting the market or is exchanging a block that was identified as being over 10% contaminated. If the block being returned is over 10% contaminated, the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱ Identify type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to TRA (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM Code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder.

^{xi} Common Language[®] and Telcordia[®] are registered trademarks and CLLITM, LERGTM Routing Guide and iconectivTM are trademarks and the Intellectual Property of Telcordia Technologies, Inc. dba iconectiv.

Explanation

- ¹ A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.
- ² Report on all resources for the requested geographic area, including newly acquired blocks/codes.
- ³ Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g. 2 blocks received=2,000 and 1 code received =10,000).
- ⁴ Not change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month 1, and Month 6 as the current month.
- ⁵ Forecast of TNs needed in each following month, starting with the most recent month as Month 1.
- ⁶ To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (47 CFR § 52.15 (g)(4)(ii)).
- ⁷ Newly acquired numbers may be excluded from the Utilization calculation (47 CFR § 52.15 (g)(4)(iii)).
