COMPLAINT DESCRIPTION:

I would strongly encourage you to not approve Duke Energy's Central Corridor Pipeline Extension Project. They have not adequately explained why this pipeline is necessary and the potential risks outweigh any economic benefit that may come from this project. There are different ways that Duke could go about completing a project like this that do not go through the densely populated areas their current routes go through. We value Duke Energy as an employer, but in order for our communities to thrive, we must put the safety of the community before economic benefit. Please do not approve this project.
