Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal so that a powerful utility can no longer block competition and progress for the sake of its own profits. Doing so would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which maintaining the status quo is placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal so that a powerful utility can no longer block competition and progress for the sake of its own profits. Doing so would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which maintaining the status quo is placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal so that a powerful utility can no longer block competition and progress for the sake of its own profits. Doing so would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which maintaining the status quo is placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I am an Ohio resident and voter and I'm writing to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal so that a powerful utility can no longer block competition and progress for the sake of its own profits. Doing so would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which maintaining the status quo is placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Mr. Reed Kurtz

Subject: Reject the FirstEnergy Bailout

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposal so that a powerful utility can no longer block competition and progress for the sake of its own profits. Doing so would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which maintaining the status quo is placed ahead of Ohioans' best interest and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Ms. Heidi Maibom
