I would like to stress my deep opposition to the pipeline proposed in my neighborhood. Please note that natural park area , like French Park , the old CrestHills Country Club as well as the Losantiville Country Club are valuable assets to our quality of life as we see more and more green spaces being developed with houses or businesses like CBT. The pipeline could have an effect on the wildlife I see every week as I walk in French park. I have seen a great horned owl there at least 25 times and have met people who come from hundreds of miles away to collect fossils. Once it's done a lot of unexpected consequences always seem to happen. What about the Mill Creek Watershed, natural water project. I see signs posted about our neighborhood with regard to that. How will the pipeline effect that? I am deeply opposed and want you to know my objections to the pipeline Reference: 16-0253-GA-BTX.

Sincerely, Sharon Butler , 6215 Ridge Avenue, 45213
