To whom it may concern,

Regarding case number 16-253-GA-BTX, Please deny Duke Energy services request that the OPSB waive the requirements to hold another public meeting on the routes proposed in their filing of September 13, 2016 and to send letters of information to all affected homeowners along the routes. The public is due transparency and information on this amended project. Duke's request to avoid these requirements, and thus transparency and information sharing, is inexcusable.

Thank you for your consideration in protecting our community and property,

Lindsay Frankel

COMMENT DESCRIPTION:

Please deny Duke Energy's request for a waiver to not inform residents and businesses along their proposed gas line route and to not hold another public meeting. Duke has made changes to their routes and should be required to notify ALL parties along the route, not just those impacted by the previous pipeline path. Additionally, Duke Energy's filing provides significantly new information that was not provided in previous meetings, such as suggested plans regarding Line A and evaluation of the routes. The public has the right to question Duke and is due transparency on this amended project. Sincerely, Sue Baldwin
