RE: Case #15-1830-EL-AIR

Gentlemen:

Please carefully consider the recent request by Dayton Power & Light to increase our customer charge by a significant amount, and reject their appeal. This is an unfair burden to place on households, especially those who just manage to pay their bills each month.

Encourage DP&L to be efficient and good stewards of energy.

This is to certify that the images appearing are an accurate and complete representation of the file document delivered in the regular course of business.

Dear Public Utilities Commission

I was concerned to hear of the increase in the customer charge Dayton Power + Light is planning to initiate but even more concerning to me is their lack of focus on renewable energy and energy efficiency programs. DP+L should be leading the way, encouraging and working toward energy efficiency. Our family is making an effort to reduce our use and should be rewarded not punished.

Sincerely

Elyse Graves

Case #15-1830-EL-AIR

27 Sept 2016

To Whom It May Concern at the Public
Utilities Commission:

I am opposed to DP&L's plan to
increase the customer charge by more than
three times. As a hard working citizen
and loyal and long-time customer of DP&L,
this is unacceptable.

I want to see DP&L increase their
renewable energy and energy efficiency
programs.

DP&L should be encouraging
energy efficiency, not punishing customers
who reduce their use.

Sincerely,

J. Gerritsen

Dear PUCO,

I'm opposed to Dayton Power& Light's plan to increase the customers charge by more than three times. I would like to see DP&L to take a more renewable energy approach with their efficiency programs.

Sincerely,

Concerned customer

Zach Carroll

DEAR PUCO

IN REGARD CASE NUMBER 15-1830-EL-AIR

I AM STRONGLY OPPOSED TO ANY INCREASE IN CUSTOMER CHARGES BY DAYTON POWER AND LIGHT. THE CONCERNATION SHOULD ON INCREASING THEIR RENEWABLE ENERGY AND EFFICIENCY, WHAT IS DP+L INCENTIVE DO^{ES} BE MORE EFFECTIVE IF PUCO CONTINUES TO ALLOW PRICE INCREASES.

Sincerely

Michael Schmitt, 1611 Bluebird Dr
Beavercreek, OH 45432

9/27/16

Dear PUCO

I'm opposed to Dayton, Power & Light's Plan to increase the customer's charge by more than 3 times.

I want to see DPL increase their Renewable energy & Energy efficiency Programs.

DPL should be encouraging energy efficiency.

To the Public Utilities Commission,

I'm against fixed rate charges. It's not fair to seniors who are on a fixed income. We try to keep prices down by being conservative in our use but this will not help us.

DP&L needs to find better ways to come up with energy efficient programs if coal is not the answer.

Look into case no 15-1830-EL-AIR.

Sincerely,

T. A. Hanson

To Whom it may concern:

Our family struggles to make ends meet, and raising our DP&C bill will make this even more difficult on our family. We should not have to lessen other parts of our life just to keep our power bill paid. We have always paid on time and have been good customers for you. Please reconsider this price increase.

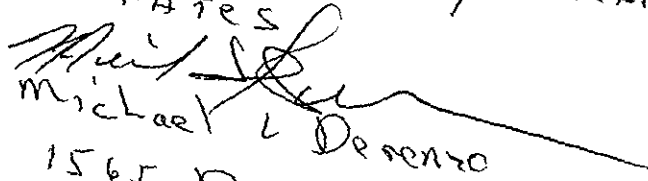

Sincerely,
Elizabeth Burns

Case Number: 15-1830-EL-AIR

Public Utilities Commission of Ohio
180 East Broad Street
Columbus, OH 43215

I am opposed to Dayton Power & Light's plan to increase the customer charge by 223% resulting in residential fixed fees. I would like DP&L to increase their renewable energy and energy efficiency programs. DP&L should not punish customers who reduce their use, but should encourage energy efficiency. This would benefit everyone.

Dear PUCO:

I am writing you today to express my deep concern for Dayton Power and Light's current attempt through current Case Number 15-1830-EL-AIR before your body to approve a significant increase in the mandatory residential fixed fee charge to all of its customers to offset operational costs of less efficient power plants instead of looking at the use of renewable energy sources for increasing efficiency of their power plants. It is a waste of resources and money to continue to operate many power plants using fossil fuels, such as coal. DP&L's plan to increase the customer charge by more than three times places an unnecessary burden on the customer and provides no incentive to the company to improve the efficiency of their power output. As a DP&L customer, I want to see them incentivized to increase their use of renewable energy and provide more energy efficient operation.

Please seriously consider the impact on the customer base and the long term effect of maintaining the current operational power plant energy source. DP&L must look to the future and plan its energy production accordingly, rather than forcing the customer to pay for a continuing inefficient power capability.

Thank you for your attention to this important matter.

Sincerely,

Attention - members of Public Utilities Commission

D. P. & L. already has high rates. I have an extremely well constructed custom built home, 17" of insulation in the attic area and two heat pumps - one of builders idea - one for each end of our ranch style design.

I'm sure D. P. & L. has a generous profit from the \$3000 plus in 2015 and \$2000.00 plus so far this year!

They don't need to increase and add more fees. They should manage on what they already charge.

I'm definitely opposed to any increases in fees.

D. P. & L. needs to get more efficient themselves.

Sincerely -
Mrs Shirley Snyder
