**Re: Clean Energy Future-Lordstown, LLC,
OPSB Case Nos. 14-2322-EL-BGN and 16-494-EL-BGA**

Dear Ms. McNeal:

The September 17, 2015, Opinion, Order, and Certificate ("Certificate") approving Clean Energy Future-Lordstown, LLC ("CEFL") Certificate of Environmental Compatibility and Public Need to Construct the Lordstown Energy Center established a set of conditions as part of the Certificate. On June 30, 2016, the Ohio Power Siting Board (OPSB") approved CEFL's application for a second amendment subject to the conditions set forth in the Certificate case ("Second Amendment").

Within this set of conditions, **Certificate Condition No. 7** requires, in part, that:

[T]he Applicant shall submit to Staff, for review, one set of detailed engineering drawings of the final project design, including the facility, temporary and permanent access roads, any crane routes, construction staging areas, and any other associated facilities and access points so that Staff can determine that the final project design is in compliance with the terms of the certificate.

Attached is a copy of the supplemental facility design drawing of the remaining phase of generating facility construction. This document was provided to Staff on September 17, 2016. Thus, this letter is to inform the OPSB Staff that CEFL is in compliance with **Certificate Condition No. 7**.

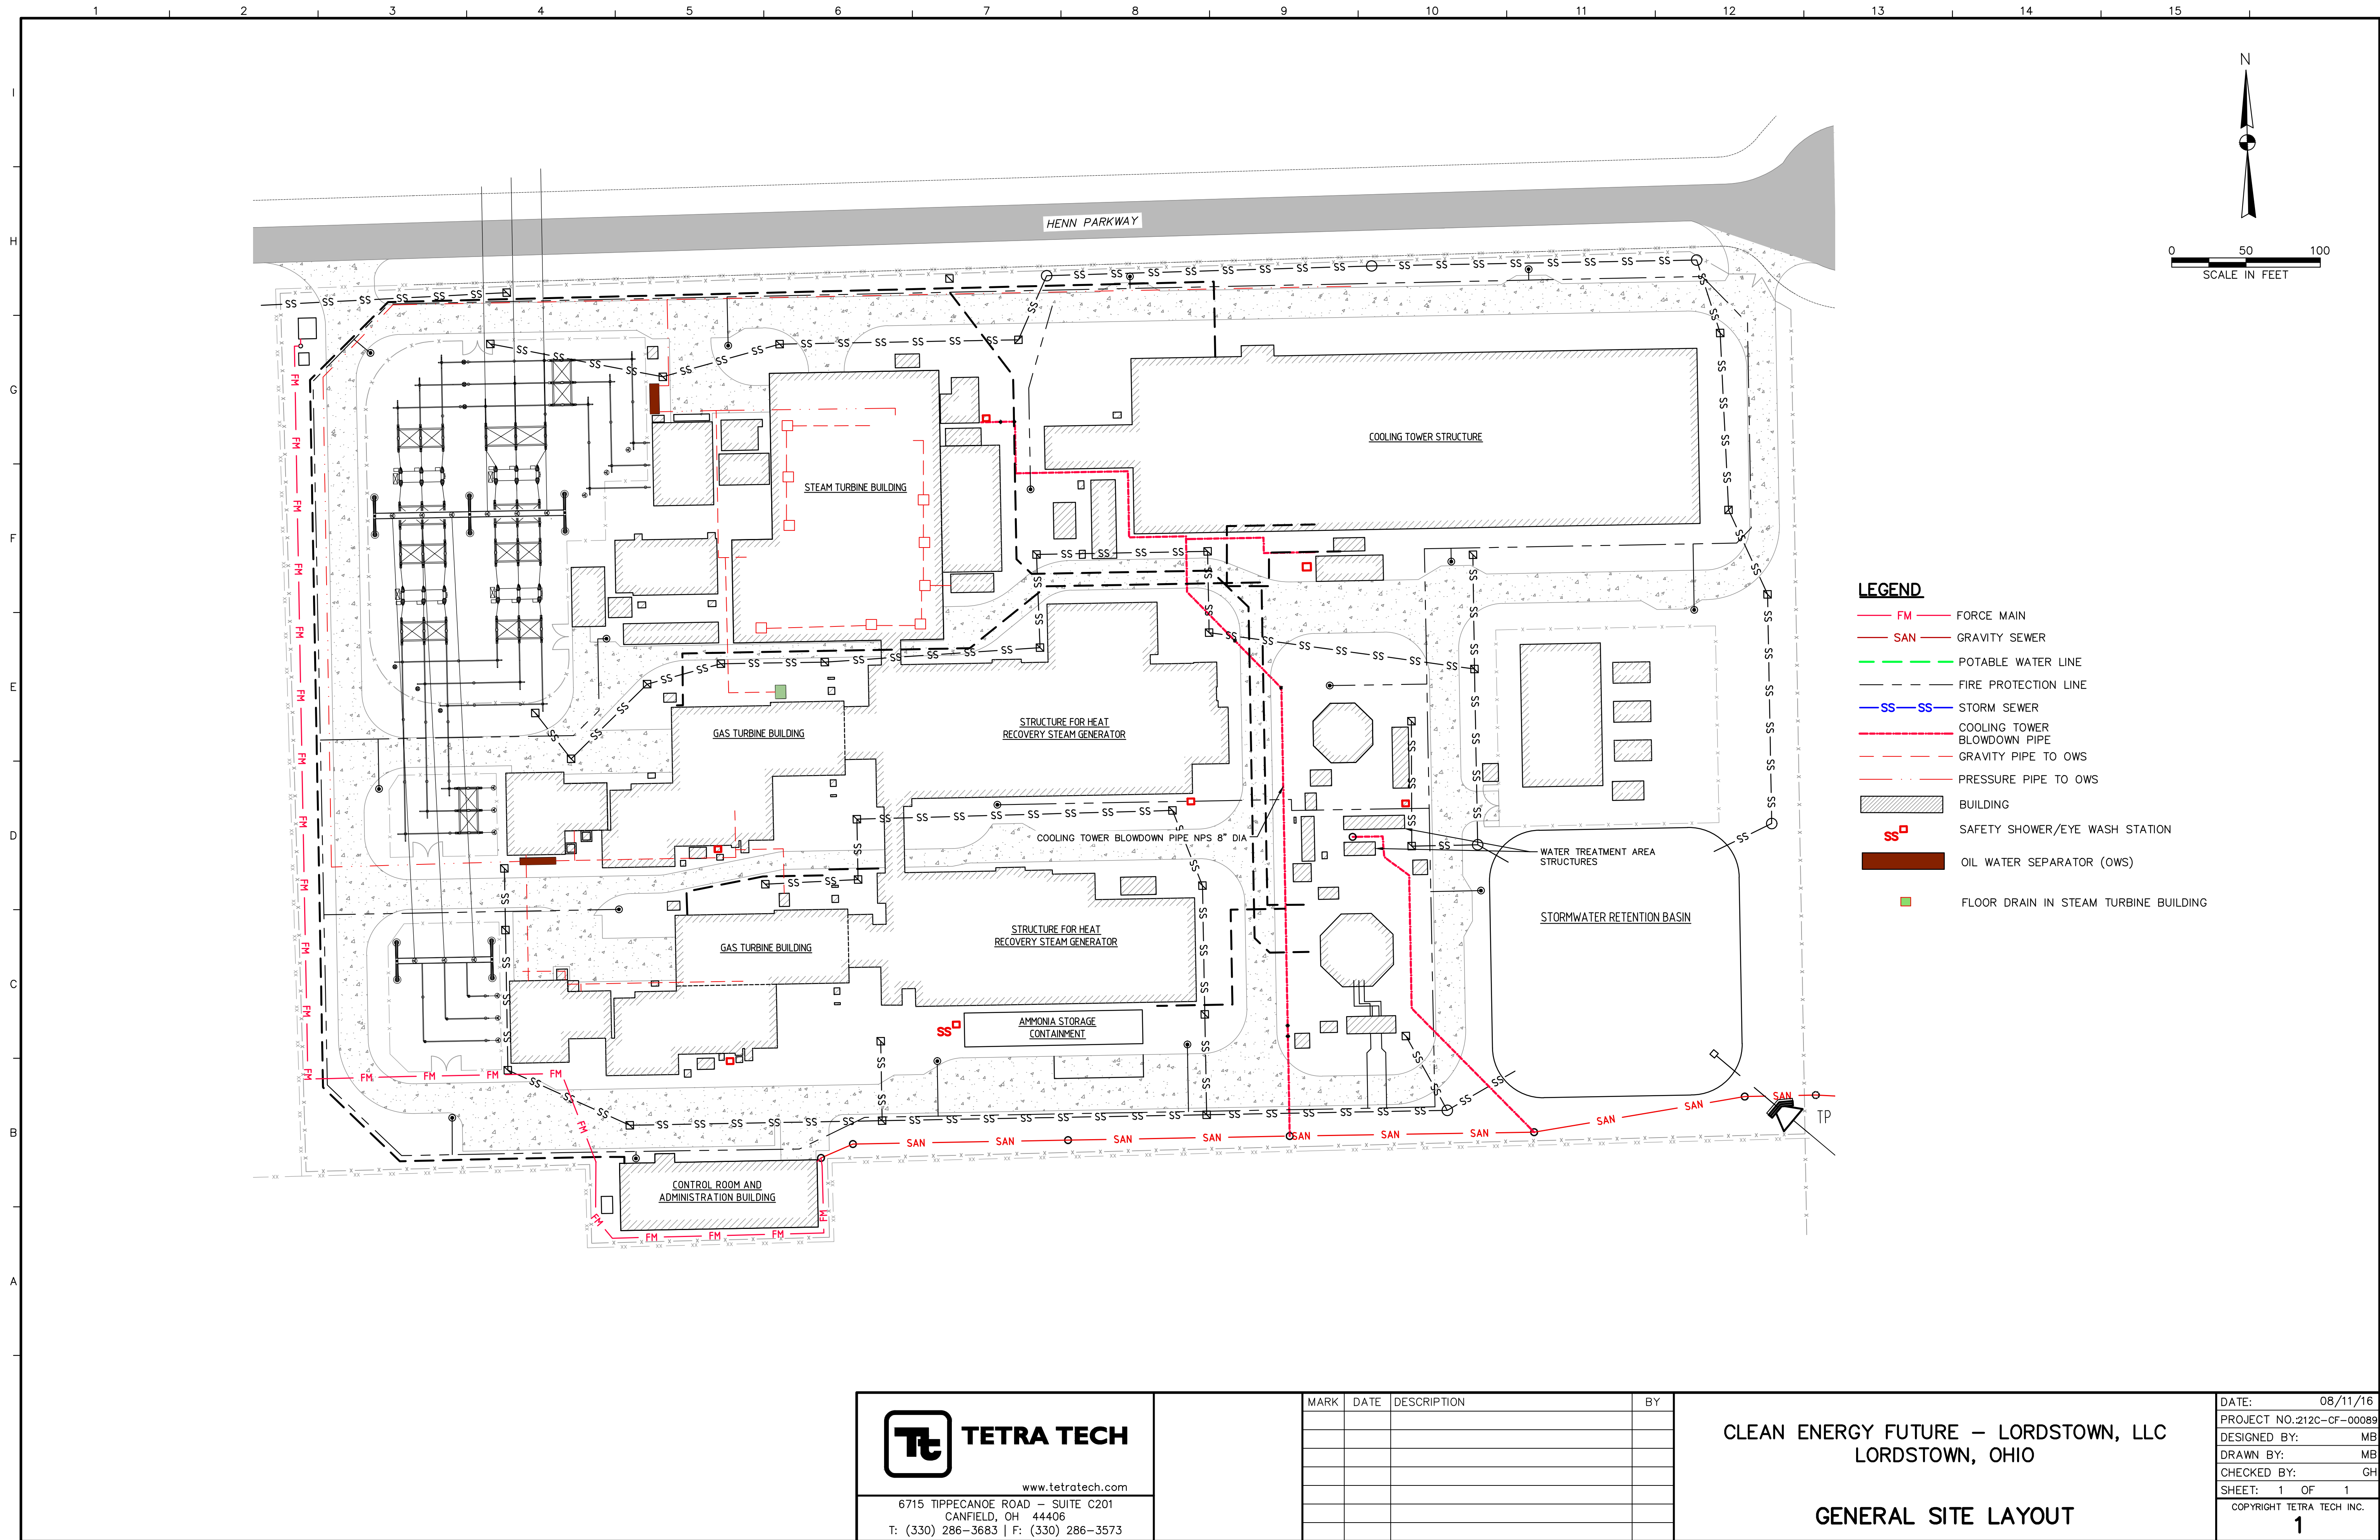

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
