Oct 10, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposals so that a powerful utility can no longer block competition and progress for the sake of its own profits. Refusing to rubber-stamp FirstEnergy's requests would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which Ohioans' best interest is placed ahead of maintaining the status quo, and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Mrs. Rosemary Lantagne  
9472 Whippoorwill Rd  
Diamond, OH 44412-9718

Commissioner Thomas Johnson

Dear Commissioner Johnson,

Ohio is uniquely positioned because one of the best sites in the world when generation is approximately 3 miles from Cleveland. We need to develop this resource, instead of continuing to support outdated petroleum based power. Say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Reject FirstEnergy's proposals so a powerful utility can't block progress for its own sake. Denying FirstEnergy's requests would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which Ohioans' best interest is placed ahead of maintaining the status quo, and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Oct 7, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposals so that a powerful utility can no longer block competition and progress for the sake of its own profits. Refusing to rubber-stamp FirstEnergy's requests would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which Ohioans' best interest is placed ahead of maintaining the status quo, and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Ms. Lisa Blake  
6425 Jeffers Rd  
Swanton, OH 43558-9139

Commissioner Thomas Johnson

Dear Commissioner Johnson,

Ohio is uniquely positioned because one of the best sites in the world when generation is approximately 3 miles from Cleveland. We need to develop this resource, instead of continuing to support outdated petroleum based power. Say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Reject FirstEnergy's proposals so a powerful utility can't block progress for its own sake. Denying FirstEnergy's requests would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which Ohioans' best interest is placed ahead of maintaining the status quo, and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Commissioner Thomas Johnson

Dear Commissioner Johnson,

How to get oil from Canada's tar sands water filtration system reverse osmosis system They say countries with little water may choose to not grow crops but trade in virtual water, importing food from countries that have large levels of water to save lots of their supplies for domestic or high-value uses. ,Insurance firm turns to planting trees in South Africa to combat drought risk

In a major speech to environmental groups and politicians, Professor John Beddington, who took up the position of chief scientific adviser recently, will say how the world is heading for major upheavals which are due to come to your head in 2030. ,reverse osmosis system water treatment systems

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

Please reject FirstEnergy's proposals so that a powerful utility can no longer block competition and progress for the sake of its own profits. Refusing to rubber-stamp FirstEnergy's requests would send a clear message to businesses, entrepreneurs, investors, and residents that Ohio is ready for a new era--one in which Ohioans' best interest is placed ahead of maintaining the status quo, and electricity is clean, reliable, and affordable.

Please reject FirstEnergy's request. It's what's right for Ohio's customers and clean energy future.

Thank you,

Mrs. Rosemary Lantagne
