

BPSB case
16-0253-GA-BTX Pipeline

October 21

FILE

Can't afford to move. Most people in our neighborhood, as I am on a fixed + low income. I am older + alone, as are most of us here + find it confusing and frustrating + dangerous to drive in the dark + in unfamiliar surroundings. I have become a creature of habit. Don't want to move to an unsafe area, our is fairly safe comparatively.

Nature and people were not meant to have offensive + constant noise, air, water + mind pollution + the pipeline would be the last straw on the

Camel's back (a quick way to
our sure destruction!

I am one of the pioneers of Blue
Ash who has earned the right
of ~~living in~~ this growing up in
this place when it was considered
country (not suburbs) + a
decent place to raise kids (walked
to school, church + stores, book
- no-hike, drug store + even
walks in the woods + studied
+ enjoyed nature + learned
from it (more than anyone)

can think of). Most of what I had
has been destroyed + now you
are suggesting the rest be replaced
with progress (really the opposite)
to benefit people who don't live
here + never did. We do not
deserve to endure this.
