AT&T has completed its annual, 21-state pole and conduit rate calculation review, conducted in accordance with the rules prescribed by the Federal Communications Commission (FCC) in 47 CFR 1.1409, and hereby revises its Ohio pole attachment and conduit occupancy rates for 2017 consistent with the FCC rate calculation formulas and with the Public Utilities Commission of Ohio (PUCO) rules set forth in OAC 4901:1-3.

In addition to the rate changes, this filing also introduces an “Incremental Foot” rate element to the pole attachment rate structure.

An attacher will be charged for each foot of space it occupies on the usable portion of the pole (e.g., typically above the 18 foot level) through the assessment of an “Initial Foot Rate” for the first foot or fraction thereof, and an “Incremental Foot Rate” for each additional foot or fraction thereof occupied. There is no charge for attachment of ancillary equipment in the “unusable” space on the pole.

Provided here are the rate changes which will take effect January 1, 2107:

1. The Pole Attachment Fee is being decreased from \$2.48 to \$2.44 per foot per year and applies to both the initial foot and each incremental foot.
2. The Conduit Attachment Fee (per foot of innerduct occupied) is being increased from \$0.51 to \$0.55 and the Conduit Attachment Fee (per foot where there is no innerduct installed – full duct) is being increased from \$0.77 to \$0.83.
