Subject: Case Number 16-1871-EL-BGN

Hello,

I hope this finds you doing well. As a Cuyahoga County resident, I would like to voice my support for case number 16-1871-EL-BGN aka, Project Icebreaker, a wind farm off the coast of Cleveland.

As a current Political Science Major and Environmental Action & Leadership Minor at Loyola University Chicago, I think a wind farm off the coast of Cleveland would be instrumental in bringing the local economy and the state of Ohio into the future industries of the US economy and the world. Cuyahoga County would greatly benefit in job diversity, educational opportunities, and clean power by proceeding with project Ice Breaker. I hope that you decide to approve of this project and thus support strengthening the metro Cleveland economy and Ohio's future of energy independence and job creation.

Thank you,
Daniel Drees
