**Re: Hardin Wind Energy LLC,  
Case Nos. 09-479-EL-BGN and 11-3446-EL-BGA**

Dear Ms. McNeal:

The March 22, 2010 Opinion, Order, and Certificate ("Certificate") approving Hardin Wind Energy LLC's ("Hardin Wind Energy") Certificate of Environmental Compatibility and Public Need established a set of conditions as part of the Certificate. On April 29, 2011 in Case No. 11-3446-EL-BGA, the Ohio Power Siting Board ("OPSB") approved an amendment ("Amended Certificate") to Hardin Wind Energy's Certificate, which also established an additional set of conditions.

Within this set of conditions, **Certificate Condition No. 5** requires that:

**Hardin shall conduct a preconstruction conference prior to the start of each construction phase, which staff shall attend, to discuss how environmental concerns will be satisfactorily addressed.**

In compliance with Certificate Condition No. 5, a preconstruction conference has been scheduled for November 17, 2016 for limited access road construction and foundation excavation. Attached is a copy of the Agenda for the November 17, 2016 preconstruction conference.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
