Message:

Good morning, my name is Zach Singler and I'm inquiring on behalf of the AES/DP&L power plants JM Stuart Station and Killen Station in Aberdeen and Manchester Ohio. As you know we have been informed that there's a possibility we will shut down in the middle of 2018 and at the age of 32 and having 8 years invested I really had hoped that I would be able to retire from this great job I've been blessed with. I really worry about my coworkers and their family's, the 700 plus people that are employed here, and also new hires that had been told this on their 3rd day who had quit other jobs to come here. Even beyond that, this would absolutely devastate the Ohio River Valley and surrounding communities. There are so many businesses that rely on us along with school districts etc. I'm sure you've had several concerns about this and I hope that this is all taken into consideration because this will truly affect so many people. Thank you for your time, Zach Singler
